	<b>Table Item</b>			
35	Hindustan electricity Generation, Tal. Maval, Pune	Approved Establish	Commission -ing of the unit or 5 yrs whichever is earlier	<p>Sr. L.O. informed that there is Court case on 15.11.2011 and the subject matter in the case is the delay in issuing the consent. Hence, it was decided to discuss the case in the meeting as a table item.</p> <p>All the points related to environmental aspects of PIL were highlighted in the note and were discussed by the CAC. It was noted that major three points in this regard are</p> <ol style="list-style-type: none"> <li>1. Disturbance to natural drainage system</li> <li>2. Availability of water to the local people in view of the extensive water use by industries.</li> <li>3. Impact of High CO<sub>2</sub> and NO<sub>x</sub> emissions</li> </ol> <p>It was noted by the CAC that the points (1) and (2) are not directly dealt by MPCB and due consideration is given to these aspects by the competent authority while reviewing EC. It was also noted that as per EP(Rules), 1986, there are no emission standards for CO<sub>2</sub> parameter but NO<sub>x</sub> is included as emission standard for the gas based thermal power plants. Therefore CAC felt that regular monitoring of NO<sub>x</sub> in stack and ambient air quality will be necessary.</p> <p>Hence, it was decided to grant consent to Establish subject to following conditions;</p> <ol style="list-style-type: none"> <li>1. Industry shall obtain Environmental Clearance as per EIA Notification, 2006.</li> <li>2. Industry shall monitor NO<sub>x</sub> in stack and ambient air quality regularly.</li> </ol>

The consents shall be disposed after obtaining necessary consent fee difference from the industry as per GoM, Revised Consent fee structure dtd. 25.08.2011.

Thereafter, CAC discussed on NOCs generally required while scrutiny of the consent application and it was decided to re-discuss the same in next meeting along with statutory requirement of other Govt. departments.

The meeting ended with vote of thanks to the Chair.
