

The image shows a vertical grid of colored squares. The grid consists of approximately 20 columns and 100 rows. The colors are primarily blue, yellow, and white. The blue squares are arranged in vertical columns, with some yellow squares interspersed. The white squares form the background. The overall pattern appears to be a data visualization or a barcode-like structure.

The image shows a small, rectangular grid table with a complex, multi-colored pattern. The grid consists of approximately 10 columns and 15 rows. The columns are color-coded in a repeating pattern: yellow, light blue, yellow, light blue, yellow, light blue, yellow, light blue, yellow, and light blue. Each cell in the grid is separated by thin black lines, creating a dense, textured appearance. The overall layout is compact and occupies the upper-left corner of the page.
