# MAHARASHTRA POLLUTION CONTROL BOARD

## ANNUAL REPORT - 2022

### Form- V

### PART A

To,  
The Chairman  
Central Pollution Control Board  
Parivesh Bhawan, East Arjun Nagar  
Delhi- 110 0032

1.	Name of the State/Union territory	<b>MAHARASHTRA</b>															
2.	Name & address of the State Pollution Control	<b>Maharashtra Pollution Control Board, Sion, Mumbai.400022</b>															
3.	Number of local bodies responsible for management of solid waste in the State/Union territory under these rules	<table border="0"> <tr> <td>1</td><td>Corporations</td><td>28</td></tr> <tr> <td>2</td><td>Councils</td><td>241</td></tr> <tr> <td>3</td><td>Nagar Panchayat</td><td>142</td></tr> <tr> <td></td><td><b>Total ULBs</b></td><td><b>411</b></td></tr> <tr> <td>4</td><td>Cantonment Boards</td><td>07</td></tr> </table>	1	Corporations	28	2	Councils	241	3	Nagar Panchayat	142		<b>Total ULBs</b>	<b>411</b>	4	Cantonment Boards	07
1	Corporations	28															
2	Councils	241															
3	Nagar Panchayat	142															
	<b>Total ULBs</b>	<b>411</b>															
4	Cantonment Boards	07															
4.	No. of authorization application Received	<b>112</b>															
5.	A Summary Statement on progress made by local body in respect of solid waste management	<b>Annexure-I Attached</b>															
6.	A Summary Statement on progress made by local bodies in respect of waste collection, segregation, transportation and disposal	<b>Annexure-II &amp; IIA Attached</b>															
7.	A Summary statement on progress made by local bodies in respect of implementation of Schedule II	<b>Annexure-III Attached</b>															
	Date:  Place: Mumbai	 <b>(Dr. Avinash Dhakne, IAS)</b> <b>Member Secretary</b> <b>Maharashtra Pollution Control Board</b>															

### A SUMMARY STATEMENT ON PROGRESS MADE BY LOCAL BODY IN RESPECT OF SOLID WASTE MANAGEMENT

Maharashtra is one of the highest urbanized states with nearly 50 % of the population residing in urban areas.

#### Classification of Cities:

No.	Name	Statistic
1	Municipal Corporations	28 Cities
2	Municipal Councils	241 Cities
3	Nagar Panchayat	142 Cities
4	Total Number of ULBs	<b>411</b>
	<b>Total SW Generated by ULBs</b>	<b>23301.2515 TPD</b>
5	Total Cantonment Boards	<b>07</b>
6	Total SW Generated By Cantonment Boards	147.21 TPD
	<b>Gross Solid Waste Generation (ULBs + Cantonment Boards)</b>	<b>23448.4615 TPD</b>

The solid waste generated by Corporations is 19316.45 MT/Day with share of 82.38 % while generation by “A” class council is 956.435 MT/Day with share of 4.08 %, “B” class council generates 1363.62 MT/Day with share of 5.82 %, “C” class council generates 1108.3345 MT/Day with share of 4.73 %, Nagar Panchayats generates 556.412 MT/Day with share of 2.37 % and Cantonment Boards contribution is 147.21 MT/day with a share of 0.63 %.

#### Solid Waste Management Status Summary

Total Number of ULBs	Total Waste Generated (MT/D)	Total Waste Collected (MT/D)	Total Waste Scientifically Treated in Facility (MT/D)	Total Waste Disposed in Sanitary/Simple Landfill (MT/D)	Total Waste Unscientific Disposed (MT/D)
411 ULBs+ 7 CB	23448.46	23044.03 (98.27 %)	18725.20 (79.85 %)	3343.12 (14.50 %)	975.71 (4.23 %)

Percentage of solid waste treatment is increased from 93.69 to 94.35 % as compared to last year Treatment percentage.

Total 18725.20 MT/Day Solid Waste is treated/processed by ULBs by adopting waste treatment technologies and total 3343.12 MT/Day is disposed of in sanitary/simple landfill. Thus, achieving overall 94.35 % average treatment. The remaining solid waste find its way for unscientific disposal/dumping. Overall average waste segregation is 93.01 % and overall solid waste transportation is 98.98 %.

The state has positively adopted the SWM Rules 2016 in totality and is working towards scientific management of solid waste in ULBs of the state. The state has a robust solid waste management policy in accordance with the Solid Waste Management Rules, 2016 and lays stress on 100 % segregation, collection, transportation & processing of wet waste through composting, bio-methanization etc. dry waste recycling, reuse and recovery through establishing material recovery facilities, landfilling of inert, processing of legacy waste through biomining.

ULBs are practicing segregation of waste at source and adequate provisions are made in Solid Waste Management DPRs for achieving 100 % segregation of waste at source. ULBs in the state are segregating waste into three categories wet, dry and domestic hazardous waste.

#### **Processing of Waste:**

Vehicles deployed for collection and transportation of waste have two compartments for dry and wet waste. Segregated waste is further segregated at processing facility and then scientifically processed. Maharashtra is the only state to have registered its own brand “**Harit Maha City Compost**” for promotion of marketing and sale of city compost which is as per the FCO standards and SWM Rules 2016.

Dry waste collected from the city is further segregated into paper, plastic, glass, metal etc. through secondary segregation process at transfer stations or the designated material recovery facility (MRF) in the city or at solid waste treatment facility. After secondary segregation of dry waste into paper, plastic, glass, metal etc. is being recycled through local sellers in the city, to recyclers in the region or to the waste processing plants in nearby metro cities through prescribed processes.

For treatment of dry waste technical options such as preparation of Refused Derived Fuel (RDF), use of plastic in roads, preparation of oil or granules from plastic etc. are also used in some municipal corporations.

ULBs have integrated rag pickers into formal system and involve them for recycling and recovery of waste. Rag pickers are provided with identity cards, basic facilities, and personal protective equipment.

In the Mumbai region, Municipal Corporation of Greater Mumbai has mandated all bulk generator of solid waste i. e. having area greater than 5000 sq. Mtr to provide in-situ treatment of solid waste generated in their premises. This practice has resulted in reduction of waste generation.

**Bio-mining of legacy waste**

Many ULBs in state have accumulated legacy waste at processing facility due to absence of treatment facilities in past. Biomining of legacy waste has been started and 193 sites have been either reclaimed or capped where legacy waste was accumulated.

Maharashtra Pollution Control Board has prepared Region wise abstract showing a summary statement of all local bodies indicating class, populations, Quantum of Solid Waste generations, treatment, adopted technologies for solid waste treatment, source segregation percentage and transportation percentage as per form IV submitted by ULBs.

Region wise total number of ULBs statement is enclosed as **Annex-I**.

A Statement of Municipal Solid Waste generation and treatment in the State is enclosed with graphical representation as **Annex-II**. A Summary Statement on progress made by Cantonment Board (Army establishment) in respect of waste collection, segregation, transportation and disposal in the State of Maharashtra is enclosed as **Annex-II A**.

A Summary Statement on progress made by local bodies in respect of waste collection, segregation, transportation and disposal in the State of Maharashtra is enclosed as **Annex-III**.

**MAHARASHTRA POLLUTION CONTROL BOARD****A SUMMARY STATEMENT ON PROGRESS MADE BY LOCAL BODY  
IN RESPECT OF IMPLEMENTATION OF SCHEDULE-II**

Maharashtra is one of the urbanized states in the country. The state is having total 418 Nos. of Local Bodies. ULBs installed 456 composting plants as a waste processing facility. Also 145 vermi-composting facilities are installed, 57 bio-methanization plants are installed, 01 waste to Energy plant and 23 RDF plant installed. The 382 landfill sites are identified. The Bio-medical waste and industrial hazardous waste generated in the area of local bodies is not mixed with MSW and such waste is disposed of separately in accordance with provisions made under BMW Management Rules, 2016 and Hazardous and Other Wastes (Management and Trans Boundary Movement) Rules, 2016. For the disposal of Hazardous waste, 4 no. of common Hazardous waste treatment & disposal facility have been developed in the State. For the disposal of the Bio-medical waste, 30 number of Common Bio-medical waste treatment facilities have been provided.

The main constraint for the effective implementation of MSW Rules & setting up of waste processing facility for local bodies is non-availability of suitable land. Considering the constraint, the Urban Development Department, Govt. of Maharashtra has passed order regarding formation of District level committee in every District under the Chairmanship of District Collector. The main object of district level committee is to identify & select waste processing and landfill sites. The Committee comprises of 11 members of various concerned department. While identifying the suitable location for landfill and waste processing site, a care is taken by the District level committee that the site should be away from habitation clusters, forest, water bodies, monuments, wet lands and places of important cultural, historical and religious aspect including CRZ areas.

**Initiative taken/proposed by the MPC Board:**

- Board has developed web portal for urban local bodies to monitor daily and monthly data for waste generation, segregation, collection, transportation from administrative ward and its proper treatment. All corporations are submitting the details of waste collected, transported and treated in concern wards. Hence it is resulted in self-certification and self-audited by local bodies.
- Board constantly issuing notices/DO letters/directions to the Municipal Corporations/Councils for implementation of SWM Rules, 2016.
- Hon'ble Chairman has issued Directions under section 5 of the Environment (Protection) Act, 1986 to all local bodies for implementation of Solid Waste Management Rule, 2016.
- Board has issued environmental compensation notices to 168 and 114 local bodies with respect to solid waste management and legacy waste management respectively.
- Board has initiated the concept of providing financial and technical assistance to Municipal Councils and Nagar Panchayats for setting up Solid Waste Management facility towards abatement and control of pollution.
- Board has prepared Model Tender Document on solid waste management for local bodies and same is hosted on Boards website
- Board has also constituted Technical Advisory Committee for State level for implementation of SWM Rule 2016 in the State of Maharashtra.
- Board has scrutinized of authorizations and the treatment technology prepared by Local Body by MSW Committee. The members of committee are from All India Institute of Local Self Govt & Ex. Dy. Commissioner of Municipal Corporation of Greater Mumbai.
- For effective implementation and compliance of these Rules, Board pursued the matter with Principal Secretary, Urban Development Department, GOM requesting them to look personally into the matter for compliance.

**Gaps and issues in Implementation:**

- Training for the staff in the solid waste management department to improve efficiency and safety standards may be required.
- Quantification of waste data.
- There is lack of personnel operating at the processing facility.
- The current collection and transportation system is not optimized.
- Lack of management skill with Local Bodies
- Non availability of suitable land for handing over to concerned local bodies which are not having their own land.
- Local Community resistance.
- Inadequate finance for management of Solid Waste by Local Bodies
- Selection of proper waste processing technology with respect to quantity of waste generation including waste to energy plants.
- Lack of public awareness/participation.
- Unsegregated Waste at Source.

**Suggestions:**

- ULBs shall be appoint Environment officer to deal with SWM, C & D waste and other waste management.
- Public awareness and involvement of people in the segregation of waste.
- Provision of adequate financial assistance to ULB for effective implementation of SWM Rules, 2016.
- Suitable technology adaptation to different group of ULB's.
- Form expert group to redefine to site selection criteria considering advance technology and need for decentralize treatment plant.
- May consider creating authority for selecting, providing, and operating the MSW facility by itself or on BOOT basis at each stage.
- Identification of landfill and waste processing sites by State Government and handover to concerned local bodies.
- Research and development on low-cost standard models.

**PART B****Towns/cities**

Total number of towns/cities	: 418
Total number of ULBs	: 411 + 07 Cantonment Boards
Number of class I & class II cities/towns	: Corporations - 28
	A Class - 16
	B Class - 74
	C Class - 151
	Nagar Panchayats - 142
	Cantonment Boards - 07

**Authorization status (names/number) in this year**

Number of applications received	: 112
Number of authorizations granted	: 19
Authorizations under scrutiny	: 65
Authorizations Rejected	: 16

**SOLID WASTE Generation status**

Solid waste generation in the state (TPD)	: 23448.46*
Collected	: 23044.03
Treated	: 18725.20
Scientifically Landfilled	: 3343.12
Dumped	: 975.71 (Unscientifically Dumping)

\* In the Mumbai region, Municipal Corporation of Greater Mumbai has mandated all bulk generator of solid waste i. e. having area greater than 5000 sq. Mtr to provide in-situ treatment of solid waste generated in their premises. This practice is resulted in reduction of waste generation.

**Compliance to Schedule I of SW Rules (Number)**

Good practices in cities/towns includes IEC, training, public awareness	: 289
House-to-house collection	: 418 ULBs
Segregation at Source	: 407
Storage	: 284
Covered transportation	: 418 ULBs

**Processing of SW (Number): Solid Waste processing facilities setup for ULBs**

Composting	
No. of Cities/ULBs	No. of Plant installed
400	456

Vermicomposting	
No. of Cities/ULBs	No. of Plant installed
112	145

Biogas/Bio-methanization	
No. of Cities/ULBs	No. of Plant installed
45	57

RDF/ Palletization	
No. of Cities/ULBs	No. of Plant installed
15	23

Solid Waste processing facilities setup for Cantonment Boards				
No. of Cantonment Boards	Composting	Vermicomposting	Bio-methanation	RDF
7	6	5	0	0

**Processing facility operational:**

Sl. No.	Composting	Vermicomposting	Biogas	RDF/ Palletization
	456 + 6 = 462	145 + 5 = 150	57	23

**Processing facility under installation/planned:**

Sl. No.	Composting	Vermicomposting	Biogas	RDF/ Palletization
---	---	---	----	---

**Waste-to-Energy Plants: (Number)**

Sl. No.	Plant Location	Status of operation	Power generation (MW)	Remarks
1	Solapur Municipal Corporation	In operation	4 MW	--

**Monitoring at Waste processing/Landfills sites**

Sl. No.	Name of Facilities (Corporation/Councils)	Ambient air	Groundwater	Leachate quality	Compost quality	VOCs
1	Municipal Corporation of Greater Mumbai	Done	Done	Done	Done	--
2	Pimpri Chinchwad Municipal Corporation	Done	Done	Done	Done	--
3	Pune Municipal Corporation	Done	--	Done	--	--
4	Mahad Municipal Council	Done	Done	--	--	--
5	Nashik Municipal Corporation	--	Done	--	--	--

**Status of Action Plan prepared by Municipalities -**

Total number of municipalities: 411

Number of Action Plan submitted to urban development department: 392
