

- (iv) Effluent Disposal: The treated trade effluent shall be recycled to the maximum extent and remaining shall be discharged on land for gardening and irrigation purpose. In no case, at any time effluent shall finds its way to any water body directly or indirectly.
- (v) Sewage Effluent Treatment: The applicant shall provide comprehensive treatment system as is warranted with reference to influent quality and operate and maintain the same continuously so as to achieve the quality of treated effluent to the following standards.

(1)	Suspended Solids	Not to exceed	100	mg/l.
(2)			100	шg/1.
(4)	BOD 3 days 27o C.	Not to exceed	100	mg/l.

(vi) Sewage Effluent Disposal: The treated effluent shall be used on land for gardening /plantation only.

(viii)Other Conditions: Industry should monitor effluent quality regularly.

- 4. The appricant shall comply with the provisions of the Water (Prevention & Control of Rollution) Cess Act, 1977 (to be referred as Cess Act) and amendment Rules, 2003 there under
  - The daily water consumption for the following categories is as under:
  - (i) Domestic purpose ... 5.00 CMD (ii) Water gets Polluted & Pollutants are Biodegradable ... 26.00 CMD (iii) Water gets Polluted, Pollutants are not Biodegradable & Toxic ... 0.00 CMD (iv) Industrial Cooling, spraying in mine pits or boiler feed

7.50CMD

The applicant shall regularly submit to the Board the returns of water consumption in the prescribed form and pay the Cess as specified under Section 3 of the said Act.

SRO Pune II/I/R/L/61504000

## 5. CONDITIONS UNDER AIR ACT:

(i)

The applicant shall install a comprehensive control system consisting of control equipments as is warranted with reference to generation of emission and operate and maintain the same continuously so as to achieve the level of pollutants to the following standards:

#### a) Control Equipment:

Industry shall provide dust collector of sufficient capacity to control the emissions.

b) Standards for Stack Emissions:

1) SPM Not to exceed

150mg/Nm3

Height in Mtrs.

(ii) The applicant shall observe the following fuel pattern:-

Sr. No.	the second		
Sr. NO.	<b>Type Of Fuel</b>	Quantita	TIONE
	Po or 1 dor	Quantity	UOM

-- Steam shall be taken from exiting boiler.-(iii) The applicant shall erect the chimney(s) of the following specifications:-

#### Sr. No. Chimney Attached To

-- Steam shall be taken from exiting boiler.----

- (iv) The applicant shall provide ports in the chimney (s) and facilities such as ladder, platform etc. for monitoring the air emissions and the same shall be open for inspection to/and for use of the Board's Staff. The chimney(s) vents attached to various sources of emission shall be designated by numbers such as S-1, S-2, etc. and these shall be painted/ displayed to facilitate identification.
- (v) The industry shall take adequate measures for control of noise levels from its own sources within the premises so as to maintain ambient air quality standard in respect of noise to less than 75 dB(Ar during day time and 70 dB(A) during night time. Day time is reckoned in between 6 am. and 10 p.m. and night time is reckoned between 10 p.m. and 6 a.m.

### (vi) Other Conditions

- 1) The indu should not cause any nuisance in surrounding area.
- 2) The industry should monitor stack emissions and ambient air quality Regular

#### 6. Conditions for D.G. Set

- Industry should provide acoustic enclosure for control of noise. The acoustic enclosure/ acoustic treatment of the room should be designed for minimum 25 dB (A) insertion loss or for meeting the ambient noise standards, whichever is on higher side. A suitable exhaust muffler with insertion loss of 25 dB (A) shall also be provided. The measurement of insertion loss will be done at different points at 0.5 meters from acoustic enclosure/room and then average.
- c. The industry shall take adequate measures for control of noise levels from its own sources within the premises in respect of noise to less than 55 dB(A) during day time and 45 dB(A) during the night time. Day time is reckoned between 6 a.m. to 10 p.m and night time is reckoned between 10 p.m to 6 a.m.

- d. Industry should make efforts to bring down noise level due to DG set, outside industrial premises, within ambient noise requirements by proper sitting and control measures.
- e. Installation of DG Set must be strictly in compliance with recommendations of DG Set manufacturer.
- f. A proper routine and preventive maintenance procedure for DG set should be set and followed in consultation with the DG manufacturer which would help to prevent noise levels of DG set from deteriorating with use
- g. D.G. Set shall be operated only in case of power failure
- h. The applicant should not cause any nuisance in the surrounding area due to operation of D.G. Set.

# 7. CONDITIONS UNDER HAZARDOUS WASTE (MANAGEMENT, HANDLING & TRANSBOUNDRY MOVEMENT) RULES, 2008:

C M			•{``	
Sr. No.	Type Of Waste	Quantity	UOM	Disposal
1	23.1 Waste Residue	0.70	MT M	MEPL, Ranjangaon
2	24.1 Textile chemical residues	3.50	Kg/M	MEPL, Ranjangaon
3	water treatment	3.00	MT/M	MEPL, Ranjangaon
4	33.2 Sludge from treatment of waste water	5.00*	Kg/M	MEPL, Ranjangaon
5	33.3 Discarded containers / barrels / liners	16.00	No./M	MEPL, Ranjangaon
6	5.1 Used /spent oil	32.00	Lit./M	Authorized reprocessor
7	5. Used/spent oil	26.00	Kg/M	MEPL, Ranjangaon
	84.1 Flue gas cleaning residue*	10.00	Kg/M	MEPL, Ranjangaon

(i) The Industry shall handle hazardous wastes as specified below.

The authorization is hereby granted to operate a facility for collection, storage, thansport & disposal of hazardous waste.

- The industry should comply with the Hazardous Waste (M&H) Rules, 2003.
- a. Whenever due to any accident or other unforeseen act or even, such emissions occur or is apprehended to occur in excess of standards laid down, such information shall be forthwith Reported to Board, concerned Police Station, office of Directorate of Health Services, Department of Explosives, Inspectorate of Factories and Local Body. In case of failure of pollution control equipments, the production process connected to it shall be stopped.
- b. The unit has to display and maintain the data online outside the factory main gate in Marathi & English both on a 6'x4' display board in the manner and the report of the compliance along with photograph shall be submitted to this office & concerned Regional Office/ Sub Regional Office.

## 8. Industry shall comply with following additional conditions:

- i. The applicant shall maintain good housekeeping and take adequate measures for control of pollution from all sources so as not to cause nuisance to surrounding area / inhabitants.
- ii. The applicant shall bring minimum 33% of the available open land under green coverage/ tree plantation.
- iii. Solid waste The non hazardous solid waste arising in the factory premises, sweepings, etc., be disposed of scientifically so as not to cause any nuisance / pollution. The applicant shall take necessary permissions from civic authorities for disposal to dumping ground.
- iv. The applicant shall provide for an alternate electric power source sufficient to operate all pollution control facilities installed by he applicant to maintain compliance with the terms and conditions of the consent. In the absence, the applicant shall stop, reduce or otherwise, control production to abide by terms & conditions of this consent regarding pollution levels.
- v. The applicant shall not change or alter quantity, quality, the rate of discharge, temperature or the mode of the effluent / emissions or hazardous wastes or control equipments provided for without previous written permission of the Board.
- vi. The applicant shall provide facility for collection of environmental samples and samples of trade and sewage effluents, air emissions and hazardous wastes to the Board staff at the terminal or designated points and shall pay to the Board for the services rendered in this behalf.
- vii. The firm shall submit to this office, the 30th day of September every year, the Environmental Statement Report for the financial year ending 31st March in the prescribed Form-V as pre the provisions of rule 14 of the Environment (Protection) (Second Amendment) Rules, 1992.
- ix. As inspection book shall be opened and made available to the Board's officers
- during their visit to the applicant.x. The applicant shall install a separate electric meter showing the consumption of energy for operation of domestic and industrial effluent treatment plants and air pollution control system A register showing consumption of chemicals used for treatment shall be maintained.
- Xi. Separate drainage system shall be provided for collection of trade and sewage effluents.
- xii. Terminal manholes shall be provided at the end of collection system with arrangement for measuring the flow. No effluent shall be admitted in the pipes / sewers down stream of the terminal manholes. No effluent shall find its way other than in designed and provided collection System.
- weither storm water nor discharge from other premises shall be allowed to mix with the effluents from the factory.
- 10. Industry shall submit the resolution from Company's Board that they have started the operation without obtaining necessary permission from the Board and violated the provision of Environmental Laws and in future they will not do such violations. If industry authority fails to submit the above said resolution within one month period, consent will be treated as cancelled.
- 11. This Consent is issued on the basis of No Increase in Pollution Load report certified by professor of U.I C.T.

SRO Pune II/I/R/L/61504000

- 12. This Consent is issued pursuant to the decision of the Consent Appraisal Committee meeting of the Board held on 29.05.2012
- **13.** The Capital investment of the industry is Rs. 8.57 Crores. (The total Gross C.I of the industry including the exiting C.I is of Rs. 110.7 Crores).
