<u>Schedule-I</u>

Terms & conditions for compliance of Water Pollution Control:

1) A] As per your application, you have provided the existing Effluent Treatment Plant (ETP) with the design capacity of 120 CMD for combine treatment of trade & domestic effluent

B] The Applicant shall operate the effluent treatment plant (ETP) to treat the trade effluent so as to achieve the following standards prescribed by the Board or under EP Act, 1986 and Rules made there under from time to time, whichever is stringent.

51 NO.	Parameters	Standards prescribed by Board (If any)
	I. Compulsory Parameters	Limiting Concentration in mg/l, except for pH
01	рН	5.5 to 9.0
02	Oil & Grease	
03	BOD (3 days 27oC)	10 30
04	Total Dissolved Solids	2100
05	Phosphate(as P)	
06	Suspended Solids	100
07	COD	
08	Chloride	250
)9	Sulphate	1000
10	Iron	3
1	Total Metal	

C) The treated effluent shall be recycled to the maximum extent & remaining treated effluent shall be used on land of 13,24 acres for gardening. In no case effluent shall find its way for gardening/outside factory premises.

- 2) A] As per your application, you have provided the existing Effluent Treatment Plant (ETP) with the design capacity of 120 CMD for combine treatment of trade & domestic effluent.
 - B] The Applicant shall operate the sewage treatment system to treat the sewage so as to achieve the following standards/ prescribed under EP Act, 1986 and Rules made there under from time to time, whichever is stringent.
 (1) Suspended Solids. Not to exceed 100 mg/l

(2) BOD 3 days 27oC.	Not to exceed	100	mg/l.
	Not to exceed	100	mg/l.
and the second			

- C] The treated sewage shall be recycled to the maximum extent & remaining treated sewage shall be used on land of 13.24 acres for gardening. In no case effluent shall find its way for gardening/outside factory premises.
- D] In case the treatment system is combined for trade effluent and sewage then the standards and disposal path prescribed at sr. no.1 B & C of schedule I shall be applicable.
- 3) The Board reserves its rights to review plans, specifications or other data relating to plant setup for the treatment of waterworks for the purification thereof & the system for the disposal of sewage or trade effluent or in connection with the grant of any consent conditions. The Applicant shall obtain prior consent of the Board to take steps to establish the unit or establish any treatment and disposal system or and extension or addition thereto.

Kalyani Hayes Lemmerz Ltd (Car Wheel Plant), SRO Pune (1/1/8/1707)440000 age 3 of 8

- 4) The industry shall ensure replacement of pollution control system or its parts after expiry of its expected life as defined by manufacturer so as to ensure the compliance of standards and safety of the operation thereof.
- 5) The Applicant shall comply with the provisions of the Water (Prevention & Control of Pollution) Cess Act, 1977 and as amended, by installing water meters, filing water cess returns in Form-I and other provisions as contained in the said act.

5F. NO.	Purpose for water contract	ouru uct.
	Purpose for water consumed	Water consumption
1.	Industrial Cooling annual in the	quantity (CMD)
	Industrial Cooling, spraying in mine pits or boiler feed	20
2.	Domestic purpose	
3.	Processing whorehow water in the	15
	Processing whereby water gets polluted & pollutants are easily biodegradable	20
4.	Processing whereby water gets polluted &	*
	nollutants and the sets polluted &	0
	pollutants are not easily biodegradable and are	2 \ \
	toxic	

6) The Applicant shall provide Specific Water Pollution control system as per the conditions of EP Act, 1986 and rule made there under from time to time/Environmental Clearance / CREP guidelines.

General Conditions:

1)

<u>Schedule-IV</u>

The applicant shall provide facility for collection of environmental samples and samples of trade and sewage effluents, air emissions and hazardous waste to the Board staff at the terminal or designated points and shall pay to the Board for the services rendered in

If the MIDC pipeline is broken/ overflowing chamber, in such cases industry shall not 2) discharge their treated effluent into MIDC drain, it shall be sent to CETP by tanker. 3)

Industry should monitor effluent quality, stack emissions and ambient air quality 4)

The applicant shall provide ports in the chimney/(s) and facilities such as ladder, platform etc. for monitoring the air emissions and the same shall be open for inspection to/and for use of the Board's Staff. The chimney(s) vents attached to various sources of emission shall be designated by numbers such as S-1, S-2, etc. and these shall be painted/ displayed to facilitate identification. 5)

Whenever due to any accident or other unforeseen act or even, such emissions occur or is apprehended to occur in excess of standards laid down, such information shall be forthwith Reported to Board, concerned Police Station, office of Directorate of Health Services, Department of Explosives, Inspectorate of Factories and Local Body. In case of failure of pollution control equipments, the production process connected to it shall be

- The applicant shall provide an alternate electric power source sufficient to operate all 6) pollution control facilities installed to maintain compliance with the terms and conditions of the consent. In the absence, the applicant shall stop, reduce or otherwise, control production to abide by terms and conditions of this consent.
- 7) The firm shall submit to this office, the 30th day of September every year, the Environmental Statement Report for the financial year ending 31st March in the prescribed Form-V as per the provisions of rule 14 of the Environment (Protection) (Second Amendment) Rules, 1992.
- The industry shall recycle/reprocess/reuse/recover Hazardous Waste as per the provision 8) contain in the HW(MH&TM) Rules 2008, which can be recycled 9)
- /processed/reused/recovered and only waste which has to be incinerated shall go to incineration and waste which can be used for land filling and cannot be recycled/reprocessed etc should go for that purpose, in order to reduce load on incineration and landfill site/environment.
- 10) The industry should comply with the Hazardous Waste (M,H & TM) Rules, 2008 and submit the Annual Returns as per Rule 5(6) & 22(2) of Hazarsous Waste (M,H & TM) Rules, 2008 for the preceding year April to March in Form-IV by 30th June of every year.
- An inspection book shall be opened and made available to the Board's officers during 11) their visit to the applicant.
- The applicant shall obtain Consent to Operate from Maharashtra Pollution 12)Control Board before actual commencement of the Unit/ Activity.
- Industry shall strictly comply with the Water (P&CP) Act, 1974, Air (P&CP) Act, 1981 13)and Environmental Protection Act, 1986 and industry specific standard under EP Rules 1986 which are available on MPCB website(www.mpcb.gov.in).
- The industry shall constitute an Environmental cell with qualified staff/personnel/agency 14)
- to see the day to day compliance of consent condition towards Environment Protection. Separate drainage system shall be provided for collection of trade and sewage effluents. 15) Terminal manholes shall be provided at the end of the collection system with arrangement for measuring the flow. No effluent shall be admitted in the pipes/sewers downstream of the terminal manholes. No effluent shall find its way other than in designed and provided collection system.
- 16) Neither storm water nor discharge from other premises shall be allowed to mix with the effluents from the factory.
 - The applicant shall install a separate meter showing the consumption of energy for operation of domestic and industrial effluent treatment plants and air pollution control

system. A register showing consumption of chemicals used for treatment shall be

- 18) Conditions for D.G. Set a)
- Noise from the D.G. Set should be controlled by providing an acoustic enclosure or by b)
- Industry should provide acoustic enclosure for control of noise. The acoustic enclosure/ acoustic treatment of the room should be designed for minimum 25 dB (A) insertion loss or for meeting the ambient noise standards, whichever is on higher side. A suitable exhaust muffler with insertion loss of 25 dB (A) shall also be provided. measurement of insertion loss will be done at different points at 0.5 meters from acoustic enclosure/room and then average. c)
- Industry should make efforts to bring down noise level due to DG set, outside industrial premises, within ambient noise requirements by proper sitting and control measures. d)
- Installation of DG Set must be strictly in compliance with recommendations of DG Set e)
- A proper routine and preventive maintenance procedure for DG set should be set and followed in consultation with the DG manufacturer which would help to prevent noise levels of DG set from deteriorating with use f)
- D.G. Set shall be operated only in case of power failure. g)
- The applicant should not cause any nuisance in the surrounding area due to operation of h)
- The applicant shall comply with the notification of MoER dated 17.05.2002 regarding noise limit for generator sets run with diesel 19)
- The industry should not cause any nuisance in surrounding area. The industry shall take adequate measures for control of noise levels from its own 20)
- sources within the premises so as to maintain ambient air quality standard in respect of noise to less than 75 dB (A) during day time and 70 dB (A) during night time. Day time is reckoned in between 6 a.m. and 10 p.m. and night time is reckoned between 10 p.m. and 6 a.m. 21)
- The applicant shall maintain good housekeeping. 22)
- The applicant shall bring minimum 33% of the available open land under green coverage/ plantation. The applicant shall submit a statement on available open plot area, number of trees surviving as on 31st March of the year and number of trees planted by September end, with the Environment Statement. 23)
- The non-hazardous solid waste arising in the factory premises, sweepings, etc. be disposed of scientifically so as not to cause any nuisance / pollution. The applicant shall take necessary permissions from civic authorities for disposal of solid waste.
- The applicant shall not change or alter the quantity, quality, the rate of discharge, 24)temperature or the mode of the effluent/emissions or hazardous wastes or control equipments provided for without previous written permission of the Board. The industry will not carry out any activity, for which this consent has not been granted/without prior 25)
- The industry shall ensure that fugitive emissions from the activity are controlled so as to maintain clean and safe environment in and around the factory premises. 26)
- The industry shall submit quarterly statement in respect of industries' obligation towards consent and pollution control compliance's duly supported with documentary evidences (format can be downloaded from MPCB official site).
- The industry shall submit official e-mail address and any change will be duly informed to 27)
- The industry shall achieve the National Ambient Air Quality standards prescribed vide 28)Government of India, Notification dt. 16.11.2009 as amended. ---0000-----
