Kalpataru Point, 3rd & 4th floor, Sion- Matunga Scheme Road No. 8, Opp. Cine Planet Cinema, Near Sion Circle, Sion (E),

Mumbai - 400 022

Red/L.S.I

Date:. 1 8/09/2014

Consent No: BO/AS (T)/R/EIC NO.-NM-5278-14/CC- 87//

Consent to Operate under Section 26 of the Water (Prevention & Control of Pollution) Act, 1974 & under Section 21 of the Air (Prevention & Control of Pollution) Act, 1981 and Authorization / Renewal of Authorization under Rule 5 of the Hazardous Wastes (Management, Handling & Transboundry Movement) Rules 2008.

[To be referred as Water Act, Air Act and HW (M&H) Rules respectively].

CONSENT is hereby granted to

M/s Neogen Chemicals Pvt. Ltd Plot No- A-43, TTC MIDC Mahape, Thane-Belapur Road, Navi Mumbai.

located in the area declared under the provisions of the Water Act, Air act and Authorization under the provisions of HW(M&H) Rules and amendments thereto subject to the provisions of the Act and the Rules and the Orders that may be made further and subject to the following terms and conditions:

1. The Consent to Operate is granted for a period up to:. 31.05.2015.

2. The Consent is valid for the manufacture of -

Note: Total Production of Synthetic Organic Chemicals should not exceed 864 MT/A

3. CONDITIONS UNDER WATER ACT:

- (i) The daily quantity of trade effluent from the factory shall not exceed $5.80\ M^3$.
- (ii) The daily quantity of sewage effluent from the factory shall not exceed 3.00M3.

(iii) Trade Effluent:

Treatment: The applicant shall provide comprehensive treatment system consisting of primary / secondary and/or tertiary treatment as is warranted with reference to influent quality and operate and maintain the same continuously so as to achieve the quality of the treated effluent to the following standards:

Ц	Between	5.5 to 9.0
	Not to exceed	10 mg/l
	Not to exceed	100 mg/l.
	Not to exceed	100 mg/l.
	Not to exceed	250 mg/l.
	Not to exceed	50 mg/l.
	H bil & Grease uspended Solids GOD 3 days 27 degree C COD Cotal Ammonical Nitrogen	oil & Grease uspended Solids OD 3 days 27 degree C Not to exceed Not to exceed Not to exceed Not to exceed

(iv) Trade Effluent Disposal: The treated trade effluent should be recycled / reused to the maximum extent and remaining should be disposed into CETP.

. Page 3 of 7

- (v) **Sewage Effluent Treatment:** The applicant shall provide comprehensive treatment system as is warranted with reference to influent quality and operate and maintain the same continuously so as to achieve the quality of treated effluent to the following standards.
 - (1) Suspended Solids Not to exceed 100 mg/l.
 (2) BOD 3 days 270 C. Not to exceed 100 mg/l.
- (vi) Sewage Effluent Disposal: The treated domestic effluent shall be soaked in a soak pit, which shall be got cleaned periodically. Overflow, if any, be disposed into CETP.

(vii) Non-Hazardous Solid Wastes:-

Non-nazaruous bonu was	0003.	التواشي بوين بالمنافي المالي
Sr. No. Type Of Waste	Quantity UOM	- Disposal
	-NA-	

(viii)Other Conditions: Industry should monitor effluent quality regularly.

4. The applicant shall comply with the provisions of the Water (Prevention & Control of Pollution) Cess Act, 1977 (to be referred as Cess Act) and amendment Rules, 2003 there under

The daily water consumption for the following categories is as under:

(i) Domestic purpose ... 5.00 CMD

(ii) Water gets Polluted & Pollutants are Biodegradable ... 9.00 CMD

(iii) Water gets Polluted, Pollutants are not Biodegradable & Toxic ... 0.00 CMD

(iv) Industrial Cooling, spraying
in mine pits or boiler feed ... 30.50 CMD
(v) Gardening / Plantation ... 3.5 CMD

The applicant shall regularly submit to the Board the returns of water consumption in the prescribed form and pay the Cess as specified under Section 3 of the said Act.

5. CONDITIONS UNDER AIR ACT:

(i) The applicant shall install a comprehensive control system consisting of control equipments as is warranted with reference to generation of emission and operate and maintain the same continuously so as to achieve the level of pollutants to the following standards:

a. Control Equipment:

- i. Adequate air pollution control system of sufficient capacity shall be provided at all dust generating locations and operated properly.
- ii. There shall not be any secondary (fugitive) emissions.

6. Conditions for D.G. Set

- a. Noise from the D.G. Set should be controlled by providing an acoustic enclosure or by treating the room acoustically.
- b. Industry should provide acoustic enclosure for control of noise. The acoustic enclosure/ acoustic treatment of the room should be designed for minimum 25 dB (A) insertion loss or for meeting the ambient noise standards, whichever is on higher side. A suitable exhaust muffler with insertion loss of 25 dB (A) shall also be provided. The

- The industry shall take adequate measures for control of noise levels from its own sources within the premises in respect of noise to less than 55 dB(A) during day time and 45 dB(A) during the night time. Day time is reckoned between 6 a.m. to 10 p.m and night time is reckoned between 10 p.m to 6 a.m.
- d. Industry should make efforts to bring down noise level due to DG set, outside industrial premises, within ambient noise requirements by proper sitting and control measures.
- e. Installation of DG Set must be strictly in compliance with recommendations of DG Set manufacturer.
- f. A proper routine and preventive maintenance procedure for DG set should be set and followed in consultation with the DG manufacturer which would help to prevent noise levels of DG set from deteriorating with use
- g. D.G. Set shall be operated only in case of power failure
- h. The applicant should not cause any nuisance in the surrounding area due to operation of D.G. Set

7. Standards for Stack Emissions:

(i) Standards for Emissions of Air Pollutants:

anuarus	IOI Emiliasiona or rain		1500	/NI 3
(i)	SPM/TPM	Not to exceed	0.061	mg/Nm^3
()		Not to exceed	18.0	Kg/day
(ii)	SO_2		10.0	· · · · ·
` '	Bromine	Not to exceed	5	mg/Nm^3
(iii)	Diomine			

(ii) The applicant shall observe the following fuel pattern:-

Sr. No.	Type O	f Fuel Quantit	y UOM
1	HSD	0.9	KLD

(III) The applicant shall erect the chimney(s) of the following specifications:-

Sr. No.	Chimney Attached To	Height in Mtrs.
1	Buller (2 Nos.)	22.0
2	Scrubber to Bromine RP	12.0
3	Tp G Set	3,50

- (iv) The applicant shall provide ports in the chimney/(s) and facilities such as ladder, platform etc. for monitoring the air emissions and the same shall be open for inspection to/and for use of the Board's Staff. The chimney(s) vents attached to various sources of emission shall be designated by numbers such as S-1, S-2, etc. and these shall be painted/ displayed to facilitate identification.
- (v) The industry shall take adequate measures for control of noise levels from its own sources within the premises so as to maintain ambient air quality standard in respect of noise to less than 75 dB(A) during day time and 70 dB(A) during night time. Day time is reckoned in between 6 a.m. and 10 p.m. and night time is reckoned between 10 p.m. and 6 a.m.

(vi) Other Conditions:

- 1) The industry should not cause any nuisance in surrounding area.
- 2) The industry should monitor stack emissions and ambient air quality Regularly.
