<u>Schedule-I</u>

Terms & conditions for compliance of Water Pollution Control:

- 1) A] As per your application, you have provided of sediment tanks for the mine discharge treatment.
 - B] The Applicant shall operate the effluent treatment plant (ETP) to treat the trade effluent so as to achieve the following standards prescribed by the Board or under EP Act, 1986 and Rules made there under from time to time, whichever is stringent.

Sr No.	Parameters	Standards prescribed by Board (If any)	
	I. Compulsory Parameters	Limiting Concentration in mg/l, except for pH	
01	pН	5.5-9.0	
02	Oil & Grease	10	
03	BOD (3 days 27oC)	30	
04	Total Dissolved Solids	200	
05	Phenolics (C6H5OH)	1.9	
06	Suspended Solids	100	
07	COD	250	
08	Chloride	600	
09	Sulphate	1000	
10	Nitrate Nitrogen	10	

C) The treated effluent shall be used for spraying mine pits to the maximum possible extent and excess shall be discharged into local nalla only after achieving above standards. The project authorities shall take proactive initiatives for use of this excess water for agricultural purposes in the vicinity of mine.

2) A.] As per your consent application, you have provided septic tank & soak pit for the domestic effluent treatment.

B] The Applicant shall operate the sewage treatment system to treat the sewage so as to achieve the following standards/ prescribed under EP Act, 1986 and Rules made there under from time to time, whichever is stringent.

(1)	Suspended Solids.	Not to exceed	100	mg/l.
(2)	Suspended Solids. BOD 3 days 27oC.	Not to exceed	100	mg/l.

- C] The treated sewage shall be soaked in a soak pit, which shall be got cleaned periodically and shall be used on land for gardening.
- D] In case the treatment system is combined for trade effluent and sewage then the standards and disposal path prescribed at sr. no.1 B & C of schedule I shall be applicable.
- 3) The Board reserves its rights to review plans, specifications or other data relating to plant setup for the treatment of waterworks for the purification thereof & the system for the disposal of sewage or trade effluent or in connection with the grant of any consent conditions. The Applicant shall obtain prior consent of the Board to take steps to establish the unit or establish any treatment and disposal system or and extension or addition thereto.
- 4) The industry shall ensure replacement of pollution control system or its parts after expiry of its expected life as defined by manufacturer so as to ensure the compliance of standards and safety of the operation thereof.

M/s. WCL, Ghonsa Opencast Mine, Dist: Yavatmal, SRO Chandrapur/I/R Page 3 of 9

5) The Applicant shall comply with the provisions of the Water (Prevention & Control of Pollution) Cess Act, 1977 and as amended, by installing water meters, filing water cess returns in Form-I and other provisions as contained in the said act.

Sr. no.	Purpose for water consumed	Water consumption quantity (CMD)
1.	Industrial Cooling, spraying in mine pits or boiler feed	382.00
2.	Domestic purpose	12.0
3.	Processing whereby water gets polluted & pollutants are easily biodegradable	
4.	Processing whereby water gets polluted & pollutants are not easily biodegradable and are toxic	

toxic
 6) The Applicant shall provide Specific Water Pollution control system as per the conditions of EP Act, 1986 and rule made there under from time to time, Environmental Clearance / CREP guidelines.

M/s. WCL, Ghonsa Opencast Mine, Dist: Yavatmal, SRO Chandrapur/1/R/L/61329000

Schedule-II Terms & conditions for compliance of Air Pollution Control:

1. As per your application, you have proposed to install/ provided the Air pollution control (APC)system and also proposed to erect / erected following stack (s) and to observe the following fuel pattern-

r. o. A l	Stack APC Height Type of Quantity S % SO Attached To System in Mtrs. Fuel & UoM Kg/D: NA
(1)	The applicant shall install a comprehensive control system consisting of control equipments as is warranted with reference to generation of emission and operate and maintain the same continuously so as to achieve the level of pollutants to the following standards:
• •	 (A) Standards for Ambient Air Pollutants: (i) Suspended Particulate Matter [SPM] Not to exceed 500 ug/m³ (ii) Respirable Particulate Matter [RSPM] Not to exceed 250 ug/m³ [Size less than 10 micrometer] (iii) Sulphur Dioxide (SO₂) Not to exceed 120 ug/m³ (iv) Oxides of Nitrogen (NOx) Not to exceed 120 ug/m³
	 (B) Control Equipment: (i) Coal handling plant will be provided with Dust Collector and Automatic Water Sprinkler (ii) Scientific spraying of water on all working area, dump area, stock piles with the field of appropriate dust suppression system. (iii) Coal shall be properly covered during transportation. (iv) The applicant shall carry out tree plantation along road side, around dumps or Compulsory a forestation as per proposal approved by Forest Department. The tree plantation programme shall be taken up well in advance of the actual mining activity, so that green belt of sufficient width and height is developed between mining area/road and surrounding environment. (W) Black topped metal led roads shall be provided and well maintained to prevent dust formation.
15	 Overloading of dumpers shall be avoided to prevent spillages. Overloading of dumpers shall be avoided to prevent spillages. Overloading of dumpers shall be avoided to prevent spillages. Overloading of dumpers shall be avoided to prevent spillages. Overloading of dumpers shall be avoided to prevent spillages. Overloading of dumpers shall be avoided to prevent spillages. Overloading of dumpers shall be used to avoid excess dust formation and vibration in the surrounding area. (viii) The slope of the over burden shall have slope but not more than 28 degree to the horizontal. The overburden shall be properly covered by vegetation for Stabilization. (ix) Coal transportation shall be done by installing conveyors wherever possible & mechanically covered closed trucks shall be used for transportation.
:	The applicant shall provide minimum three ambient air quality monitoring stations within mining area which should be monitored for SPM, RSPM, SO ₂ , NOx, HC, CO etc. The Annual Arithmetic Mean of minimum 104 measurements in a year taken twice a week 24 hourly at uniform interval shall conform to the National Ambient Air Quality Standards prescribed under Air (Prevention and Control of Pollution) Act. 1981 and Environment

Air (Prevention and Control of Pollution) Act, 1981 and Environment (Protection) Act, 1986. The records of results of continuous monitoring done shall be made available for inspection to the officers of the Roard.

(111)

The applicant shall take adequate measures for control of noise levels from its own Sources as follows:

Sr.No.	Location	Permissible Norms [in dB(a)]	Desired minimum thickness of Green Bell
1	Along road	65 (Commercial Area)	20
2	In Colonies	55 (Residential Area)	20
3	Near Opencast Mines	75 (Industrial Area)	10 (*40)
4	Near CHPs	75	30
5	Near Shaft	75	20
6	Near Mine exhaust fan	75	>50

as per the guidelines of Design Institute Ltd. (A Subsidiary of Coal India td.) if the residential complexes are very close).

- (IV) The Applicant shall obtain necessary prior permission for providing additional control equipment with necessary specifications and operation thereof or alteration or replacement alteration well before its the come to an end or erection of new pollution control equipment.
- (V) The Board reserves its rights to vary all or any of the condition in the consent, if due to any technological improvement or otherwise such variation (including the change of any control equipment, other in whole or in part is necessary).

General Conditions:

- The applicant shall provide facility for collection of environmental samples and samples of 1) trade and sewage effluents, air emissions and hazardous waste to the Board staff at the terminal or designated points and shall pay to the Board for the services rendered in this behalf.
- 2) If the MIDC pipeline is broken/ overflowing chamber, in such cases industry shall not discharge their treated effluent into MIDC drain, it shall be sent to CETP by tanker.
- 3) Industry should monitor effluent quality, stack emissions and ambient air quality monthly/quarterly.
- The applicant shall provide ports in the chimney/(s) and facilities such as ladder, platform etc. for monitoring the air emissions and the same shall be open for inspection to/and for use of the Board's Staff. The chimney(s) vents attached to various sources of emission shall be designated by numbers such as S-1, S-2, etc. and these shall be painted/ displayed to facilitate identification.
- 5) Whenever due to any accident or other unforeseen act or even, such emissions occur or is apprehended to occur in excess of standards laid down, such information shall be forthwith Reported to Board, concerned Police Station, office of Directorate of Health Services, Department of Explosives, Inspectorate of Factories and Local Body. In case of failure of
- pollution control equipments, the production process connected to it shall be stopped. The applicant shall provide an alternate electric power source sufficient to operate all The applicant shall provide an alternate electric power source sufficient to operate all pollution control facilities installed to maintain compliance with the terms and conditions of the consent. In the absence, the applicant shall stop, reduce of otherwise, control production to 6) abide by terms and conditions of this consent.
- 7)
- 8)
- abide by terms and conditions of this consent. The firm shall submit to this office, the 30th day of September every year, the Environmental Statement Report for the financial year ending 31st March in the prescribed Form-V as per the provisions of rule 14 of the Environment (Protection) (Second Amendment) Rules, 1992. The industry shall recycle/reprocess/reuse/recover Hazardous Waste as per the provision contain in the HW(MH&TM) Rules 2008, which can be recycled /processed/reused/recovered and only waste which has to be incinerated shall go to incineration and waste which can be used for land filling and cannot be recycled/reprocessed etc should go for that purpose, in order to reduce load on incineration and landfill site/environment. 9) site/environment.
- 10) The industry should comply with the Hazardous Waste (M,H & TM) Rules, 2008 and submit the Annual Returns as per Rule 5(6) & 22(2) of Hazardous Waste (M,H & TM) Rules, 2008 for the preceding year April to March in Form-IV by 30th June of every year. 11) An inspection book shall be opened and made available to the Board's officers during their
- visit to the applicant 🖉

- 12) The applicant shall make an application for renewal of the consent at least 60 days before the date of the expiry of the consent (in case of Renewal of consent).
 13) The industry shall constitute an Environmental cell with qualified staff/personnel/agency to see the dayto day compliance of consent condition towards Environment Protection.
 14) Separate drainage system shall be provided for collection of trade and sewage effluents. Terminal manholes shall be provided at the end of the collection system with arrangement for measuring the flow. No effluent shall be admitted in the pipes/sewers downstream of the terminal manholes. No effluent shall find its way other than in designed and provided tauninal manholes. No effluent shall find its way other than in designed and provided collection system.
- 15) Neither storm water nor discharge from other premises shall be allowed to mix with the effluents from the factory.
- 16) The applicant shall install a separate meter showing the consumption of energy for operation of domestic and industrial effluent treatment plants and air pollution control system. A register showing consumption of chemicals used for treatment shall be maintained.
- 17) Conditions for D.G. Set
 - a) Noise from the D.G. Set should be controlled by providing an acoustic enclosure or by treating the room acoustically.
 - Industry should provide acoustic enclosure for control of noise. The acoustic enclosure/ b) acoustic treatment of the room should be designed for minimum 25 dB (A) insertion loss or for meeting the ambient noise standards, whichever is on higher side. A suitable exhaust muffler with insertion loss of 25 dB (A) shall also be provided. The measurement of insertion loss will be done at different points at 0.5 meters from acoustic enclosure/room and then average.

M1 M/s. WCL, Ghonsa Opencast Mine, Dist: Yavatmal, SRO Chandrapur/1/R/L/61329000 Page 8 of 9

- Industry should make efforts to bring down noise level due to DG set, outside industrial c) premises, within ambient noise requirements by proper sitting and control measures.
- Installation of DG Set must be strictly in compliance with recommendations of DG Set d) manufacturer.
- A proper routine and preventive maintenance procedure for DG set should be set and e) followed in consultation with the DG manufacturer which would help to prevent noise levels of DG set from deteriorating with use
- D.G. Set shall be operated only in case of power failure. f
- The applicant should not cause any nuisance in the surrounding area due to operation of g) D.G. Set.
- h) The applicant shall comply with the notification of MoEF dated 17.05.2002 regarding noise limit for generator sets run with diesel
- 18) The industry should not cause any nuisance in surrounding area.
- 19) The industry shall take adequate measures for control of noise levels from its own sources within the premises so as to maintain ambient air quality standard in respect of noise to less than 75 dB (A) during day time and 70 dB (A) during night time. Day time is reckoned in between 6 a.m. and 10 p.m. and night time is reckoned between 10 p.m. and 6 a
- 20) The applicant shall maintain good housekeeping.
- 21) The applicant shall bring minimum 33% of the available open land under green coverage/ plantation. The applicant shall submit a statement on available open plot area, number of trees surviving as on 31st March of the year and number of trees planted bv September end, with the Environment Statement.
- 22) The non-hazardous solid waste arising in the factory premises, sweepings, etc. be disposed of scientifically so as not to cause any nuisance / pollution. The applicant shall take necessary scientifically so as not to cause any numerical permissions from civic authorities for disposal of solid waster the quantity quality, the rate of discharge,
- 23) The applicant shall not change or alter the quantity quality, the rate of discharge, temperature or the mode of the effluent/emissions or hazardous wastes or control equipments provided for without previous written permission of the Board. The industry will not carry out
- provided for without previous written permission of the hoard. The industry will not carry out any activity, for which this consent has not been granted without prior consent of the Board.
 24) The industry shall ensure that fugitive emissions from the activity are controlled so as to maintain clean and safe environment in and around the factory premises.
 25) The industry shall submit quarterly statement in respect of industries' obligation towards consent and pollution control compliance's duly supported with documentary evidences (format can be downloaded from MPCB official site).
 26) The industry shall submit official e-mail address and any change will be duly informed to the MPCB.
- MPCB.

Specific Conditions-

- Transportation of coal & ash shall be by closed system, Conveyor system wherever 1) possible.
- The applicant shall comply with the conditions stipulated in the environment clearance granted by MoEF, Gol Vide No: J-11015/165/2009-IA-II(M), dt: 29/02/2012t. 2)
