<b>Other Relevant Information</b>	<p>The existing consent for 34644 MT/A quantity was valid upto-31/01/2014. Industry has submitted application for Consent to Operate (exp) for 6456 MT/A quantity. The C to E for expansion was granted with condition of obtaining E.C. However industry has not submitted the same. Industry has submitted that they had applied for E.C but not received the same till date. Hence, now industry has applied for C to O (expansion) by submitting the "No Increase in pollution load Certificate" from Institute of Chemical Technology Matunga, Mumbai. Industry has submitted that- The increase in quantity of product will be without addition in plant and machinery and any change and addition in utilities. There will be no change in fuel quantity, emission and effluent quantity will reduce from 34 CMD to 30.5 CMD due to installation of R.O &amp; MEE as per previous consent condition. The C.I of Industry has increase from 1.3 Cr to 2.88 Cr mainly due to installation of R.O &amp; MEE as per Condition in C to E. The production quantity is increasing after expansion even if, they have submitted no increase in pollution load certificate. Hence change in product mix cannot be considered as per the circular.</p>
<b>Recommendation of SRO/RO</b>	<p>The industry has obtained consent to establish for expansion subject to E.C, but carried out expansion without EC. Hence consent to operate may be refused and necessary legal action may be initiated.</p>
