- Status of Statutory Clearances for Sand Ghat :

| | |
|---|---|
| Name of Address of Allottee | District Mining Officer Osmanabad /Successful Bidder Osmanabad District, Osmanabad |
| Status of the lease | New, individual/Project Proponent/Successful Bidder for auction of sand ghat by District Collector Nanded. |
| Minerals for which lessee intends to mine | Ordinary Sand for construction propose. |
| Name & Address of the Prospecting Agency | Taluka level Technical Committee chaired by Tahsildar and Dy. Engineer Irrigation, Junior Geologist, Directorate of Geology and Mining, Junior Geologist G.S.D.A representative of Maharashtra Pollution Control Board. |
| Gram Panchayat NOC | Received from Gramsabha as per public consultation procedure defined in sand mining |

| | |
|--------------------------|---|
| | guidelines of Maharashtra State dated 28.01.2022. |
| Plan Period for activity | Up to one year from the date allotment of sand ghat or up to scooping of Allotted/Permitted quantity mined out, whichever is earlier excluding stipulated mansoon period between 10 June – 30 September |

• **Method of Mining :**

The Mining will be manual opencast mining method of scooping using sample tool like spad/phawdas.

- A. Over burden/Soil Removal:
No overburden/Soil is anticipated.
 - B. Scooping of Sand/Loading.
The ordinary sand will be loaded manually by labours.
 - C. Hauling
Ordinary sand is transported through tractors/trucks with permissible quantity.
 - D. No machinery will be utilized.
 - E. Period of scooping of sand will be for one year excluding monsoon period of 10th June – 30th September or as defined by district collector.
- About 28-48 labours per ghat will be required.
 - The site services will be provided by allottee/Successful Bidder, Office, First Aid and Rest Shelters will be temporarily constructed 20m away from the bank of river.
 - Applied area for sand extraction is covered by dark basalt and which has been derived/transported from black basalt of surrounding flat and well tilled area. The sand applied area is found to be underlain by dark basalt of the riverbed.
 - Anticipated Environmental impacts and management plan.

• **Air Pollution Measures:**

| Sr. No. | Impact Source | Impact | Control measure |
|---------|----------------|--|--|
| 1 | Transport Road | On Air Quality on land/ Rd stability/ Rd degradation | <ul style="list-style-type: none"> • Compaction, grading and drainage on both sides & development of green belts. • Proper maintenance. • Regular water spraying. • Avoiding over filling of tractor and consequent spillage on the roads. |

| | | | |
|---|--------------------------|--------------------------------------|--|
| | | | <ul style="list-style-type: none"> • Air quality will be monitoring at impacted village. |
| 2 | Truck / Tractor Movement | Air quality | <ul style="list-style-type: none"> • No overloading of trucks. • Sand carrying trucks will be effectively covered by tarpaulin to avoid escape of fines to the atmosphere. • Enforcing speed limit. • Regular monitoring of the exhaust fumes. • No engine of tractor/truck will be kept on during the filling • If possible entry be restricted to river bed. |
| 3 | Ramp and sand Reach | Mining Operations | <ul style="list-style-type: none"> • Regular ramp inspection and ramp maintenance • Provision of dusk masks. • Mining will be done during day time between fixed hours only |
| 4 | Bank management | Bank erosion/ flood Plain management | <ul style="list-style-type: none"> • Green belt along bank • Plantation of wide leaf tall trees on banks, Bamboo trees and grass along slanting portion of bank. |

• **Occupational Health and Services:**

| | | | |
|----|--|--|---|
| 1. | Occupational Health and Safety Measures to Control Dust Inhalation | Safety of workers and Mining Operations. | <ul style="list-style-type: none"> • Providing a working environment that is conducive to safety and health. • The management of occupational safety and health is the prime responsibility of mine owner. • Provision of necessary personal protective equipment's. • Ensuring employees at all levels receive appropriate training and are competent to carry out their duties and responsibilities. • Provision of First Aid and Drinking Water, Temporary rest room. |
|----|--|--|---|

- **Noise Control measures :**

- In addition, personnel working near high level generating sources will be provided with ear muffs.
- No equipment generating Noise excluding tractor/truck will be permitted.
- No tractor engine will be kept idle.
- Conduct periodic audiometric tests for employees working close to high noise generating areas which as compressors, the loading and unloading section, etc.
- Provision of PPE's will be made their proper usage will be ensured for hearing protection of the workers as well as visitors.

- **Transport management :**

- The mineral transporting vehicle will be registered with the forest department/revenue department and only registered vehicles will be used from mineral transport.
- The PUC certificate for exhaust emission for all the transport vehicles will be made mandatory.
- All vehicles will be properly maintained to control emission and noise generation.
- Drivers of all the vehicles will strictly follow traffic rules.
- Speed of the mineral transport vehicles will be regulated.
- Overloading of the tractors will not be allowed.
- The Minerals transporting tractors will be properly covered with tarpaulin to avoid fugitive.
- Batch transport system will be adopted in consultation with the other sand ghat operators in the area to avoid excess traffic at a time on the road.
- Mineral transporting will be done only during day time only.
- Strict action will be taken against any driver, who do not comply the traffic rules.

- **Plantation Programme :**

- It is proposed to plant local species during the monsoon period bank of river and village roads.
- Successful Bidder/Sand Ghat allottee will implement the Environment Management Plan for the amount as per table 1.0 on his own.

Successful Bidder/Sand Ghat allottee will submit compliance to terms of conditions stipulated in the prior environment clearance to the District Mining Officer and respective Tahsildar with the expenses made on implementation of environment management plan.

District Mining Officer/respective Tahsildar will monitor the implementation of approved environmental management plan along with District Level Committee headed by District Collector as stipulated in Sand Mining Rules 2019.

The Sub-Regional Officer, Maharashtra Pollution Control Board, Latur & Convener of Public Hearing panel asked the participant who were present to raise their views & comments on the project to insure that the objective of the Public Hearing are fulfilled.

The proceeding is as below:

Proceedings:

| Sr No. | Issues raised by Public | Response/ Commitment of project proponent | Suggestion made by public hearing panel. |
|--------|---|--|--|
| 1. | <p>Shri. Vishal Gadwe, Residance Deulgaon, Tal. Paranda Dist. Osmanabad has raised the following issues,</p> <p>1.What is your action for immediate payment of 25% funds for Gram Panchayat Office, Deulgaon. Deulgaon has 25% funding which has not been met yet. Funds have not been met for the last 5 to 6 years. What will be your action on it?</p> <p>2. What will be your action for which the fund which has not been met earlier.</p> | <p>In response to the project Proponent suggested that, the Govt. of Maharashtra has announced the Policy in respect on realise of sand on dtd. 28/01/2022, have made some improvements in terms of providing 25% funding to the Gram Panchayat office. The district administration will provide you with immediate funds whatever funds are available for those improvements.</p> | <p>The Hon'ble District Collector and The Chairman of the Public Hearing panel Committee suggested that we should take review of the file and get a proper response to what we have to say. Also, as per new policy for sand mining has clear instruction accordingly we will do it in two ways. The present process is that the fund will be given to each Gram panchayat will be noted separately. Whereas regarding earlier pendency we will convey to District Mining Officer to conduct meeting so as whatever amount pending to be given to remaining Gram panchayat. The amount due to the Gram Panchayat which is yet to be paid can be collected. Accordingly, The Paranda Tahasildar can be directed to take further action. And has further</p> |

| | | | |
|----|--|--|--|
| | | | directed Project Proponent to conduct meeting as per said Hearing Direction. |
| 2 | <p>Shri. Nishikant Kshirsagar, Journalist, Arna, Tal. Paranda, Dist. Osmanabad has raised the following issues,</p> <ol style="list-style-type: none"> 1. Last year at Chinchpur (Bu) the place where the auction was held that place the sand contractors do not issue receipts and allowed to transport for 3 to 4 days on single receipts and take only entry in the register. In that manner and again if the concerned department arrest the vehicle, it takes action against the transporter or owner. 2. It would be better at the place where the sand mining is being done that place the references / Guidelines of sand mining are posted on the Digital Board. | <p>The project Proponent suggested that at this time, 100% of each would be monitored online and the barcode receipt would be with the vehicle owner and would be monitored accordingly. This time the traditional method which is manual method has been ban this year. Vehicles registered on Mahakhanij App will be considered as official vehicles. The Monitoring of the same will be done by Talathi, Tehsildar, Deputy Tehsildar and in place where the receipt is found illegal It will be considered as unauthorized.</p> <p>The Project proponent appreciate the suggestion and informed that it will be display the Digital Board to the tehsils of each taluka and if possible, to the Gram Panchayat wherever there are Sand Ghats.</p> | |
| 3. | <p>Mr. Vishal Gadwe, Resident. Deulgaon, Tal. Paranda Dist. Osmanabad has raised the following issues,</p> <ol style="list-style-type: none"> 1. He raised the question the place wherever the sand is held, that place the condition of the roads is very bad. The condition of the road is very bad due to transportation of Sand trucks on that road and it is notice that, again no attention is made on that road in this respect | <p>The project Proponent informed that probably the place where the sand Ghat would be auctioned that person would be allow to carried out transportation sand by tractor only so that the transported road would not be damaged and would not allowed to use big Vehicles for Sand transportation. if any</p> | |

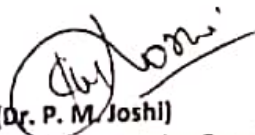

| | | | |
|---|---|---|--|
| | what would you make Suggestion for the same | damage occurred on that road then the Gram Panchayat shall propose for repair of said road from the said Road funding to the establishment of Mining Department. | |
| 4 | <p>Mr. Ganesh Landage, Resident. Jakepimpri, Tal. Paranda, Dist. Osmanabad has raised the following issues,</p> <p>1. Employment will be provided to the people. Whereas there is a lot of sand is being removed by machinery. Will it be strictly obeyed?</p> | The Project Proponent informed that we will stipulate the Terms & conditions to whom the sand ghat is has to be auctioned that he should be excavate sand mining manually only. And from the said sand ghats. If any misuse is observed in that case the agreement made with us will be cancelled from the said auction and the necessary action regarding seized of deposit amount kept with us will be taken accordingly. | |
| 5 | <p>Mr. Nishikant Kshirsagar, Journalist of Dainik Punnya Nagari, Dist. Osmanabad, has raised the following issues,</p> <p>1. At the place of sand mining where the mining road and the present road on which the CCTV Camera are located, their. If one camera fixed on one road then there will be various roads are being made and in said mining area from outside road the sand will be carried out in that reference What special remedial plan.</p> | The project Proponent informed that The roads that the auction holders have identified in the plan that road should be used by auction holders from the main road to sand Ghat road only. But if there is a situation obtained, in future, in such case if when auction is held, then the tehsildar etc. will decide and provide the fixed route to them. | |
| 6 | <p>Shri. Bhausahab Kharsade, Resident. Tandulwadi, Tal. Paranda, Dist. Osmanabad has raised the following issues,</p> <p>1. Will excavation of sand done by small Tractor and manually? What percentage? Will Gram Panchayat get 25% funding? Of that deposit.</p> | The project proponent replied that the sand should be excavated manually by labour and further informed that the fund will get to Grampanchayat as per the government will get what it | |

| | | | |
|---|---|--|--|
| | | has decided in the new sand policy. | |
| 7 | <p>Shri. Sandeep Giri, Resident Jagdalwadi, Tal. Paranda, Dist. Osmanabad has raised the following issues,</p> <ol style="list-style-type: none"> 1. In our village, which is a river basin and there is a road, from the village to the river basin, the tractors, etc., will continue to run day and night? Is there any rule impose for that? so that sand will be carried at that time. 2. Suppose you are going to give the tender to any person like (Jagdalwadi)? If a person from Jagdalwadi is keen to get this auction, will you give it to the same person? What is the eligibility for auction? | <p>The project proponent suggested that we will fix the time for the tender holder after the auction is over. Any traffic after 6.00 pm and before 6.00 am will be illegal for that we have our own monitoring team at the taluka level, at the local level, Circle Officer and Grampanchayat is also responsibility is fixed by the Government. In case if it is pointed out in that case the Tehsildar would immediately take action against him as unauthorized.</p> <p>Tender procedure advertisement will be published after verifying the detail eligibility criteria.</p> | |

The Chairman of Public Hearing panel in his concluding remark assured that all the points raised in the Public Hearing will be incorporated in the minutes & clarified that the proceeding of Public Hearing will be submitted to the Ministry of Environment of Government of Maharashtra.

Public Hearing ends with thanks to the Chair.
