EXECUTIVE SUMMARY

Maharashtra Pollution Control Board has prepared this Corporate Directory which shall serve as a vital resource for Industries, Businesses, Regulatory Bodies and all stakeholders providing a well-structured contact directory of Recycler Industries in Maharashtra. The document consolidates information on authorized recyclers handling various waste categories, including E-Waste, Plastic Waste, Hazardous Waste, Tyre Scrap, Ferrous & Non-Ferrous Metal Scrap, Battery Waste, Used Oil & Spent Solvent reprocessing etc. By offering updated contact details, operational locations, and service scopes, this directory aims to streamline communication and facilitate efficient waste management across the state.

The document supports regulatory compliance, environmental sustainability, and industry best practices by ensuring that stakeholders have easy access to verified recycling facilities. It enhances transparency in the waste management ecosystem, enabling industries to adhere to pollution control norms while promoting a circular economy. Additionally, the directory helps businesses identify responsible waste disposal partners, ensuring compliance with government regulations and fostering a cleaner, greener Maharashtra. Further Industries will be able to use this platform to verify the authenticity of recyclers. This directory will also be made available in digital format on the MPCB's website, where it will be regularly updated following the approval of new recyclers.
