

MAHARASHTRA POLLUTION CONTROL BOARD

ANNUAL REPORT - 2021 Form- V PART A

To, The Chairman Central Pollution Control Board Parivesh Bhawan, East Arjun Nagar Delhi- 110 0032

1.	Name of the State/Union territory	MAHARASHTRA
2.	Name & address of the State Pollution Control	Maharashtra Pollution Control Board, Sion, Mumbai.400022
3.	Number of local bodies responsible for management of solid waste in the State/Union territory under these rules	1 Corporations 27 2 Councils 238 3 Nagar 131 Panchayat Total ULBs 396 4 Cantonment 07 Boards
4.	No. of authorization application Received	109
5.	A Summary Statement on progress made by local body in respect of solid waste management	Annexure-I Attached
6.	A Summary Statement on progress made by local bodies in respect of waste collection, segregation, transportation and disposal	Annexure-II & IIA Attached
7.	A Summary statement on progress made by local bodies in respect of implementation of Schedule II	Annexure-III Attached
	Date: 28 7 2022 Place: Mumbai	(Ashok Shingare, IAS) Member Secretary Maharashtra State Pollution Control Board

Annex-I

A SUMMARY STATEMENT ON PROGRESS MADE BY LOCAL BODY IN RESPECT OF SOLID WASTE MANAGEMENT

Maharashtra is one of the highest urbanized states with nearly 50% population residing in urban areas.

Classification of Cities:

No.	Name	Statistic
1	Municipal Corporations	27 Cities
2	Municipal Councils	238 Cities
3	Nagarpanchayat	131 Cities
4	Total Number of ULBs	396
	Total SW Generated By ULBs	23382.56 TPD
5	Total Cantonment Boards	07
6	Total SW Generated By Cantonment Boards	148.01 TPD
	Gross Solid Waste	23530.57 TPD
	Generation (ULBs+ Cantonment Boards)	

The solid waste generated by Corporations is 19480.19 MT/Day with share of 82.79 % while generation by "A" class council is 1040.44 MT/Day with share of 4.42 %, "B" class council generates 1280.05 MT/Day with share of 5.44 %, "C" class council generates 1087.86 MT/Day with share of 4.62 %, Nagar Panchayats generates 494.01 MT/Day with share of 2.10 % and Cantonment Boards contribution is 148.01 MT/day with a share of 0.63 %.

Solid Waste Management Status Summary

Total Number of ULBs	Total Waste Generated (MT/D)	Total Waste Collected (MT/D)	Total Waste Scientifically Treated in Facility (MT/D)	Total Waste Disposed in Sanitary/Simple Landfill (MT/D)	Total Waste Unscientific Disposed (MT/D)
396 ULBs+	23530.57	23044.44	19980.22	2066.64	997.14
7 CB		(97.93 %)	(84.91%)	(8.96 %)	(4.32 %)

Percentage of solid waste treatment is increased from 72.66% to 93.69% as compared to last year Treatment percentage. Due to covid pandemic situation marginal increase in treatment quantity is observed.

Total 19980.22 MT/Day Solid Waste is treated/processed by ULBs by adopting waste treatment technologies and total 2066.64 MT/Day is disposed of in sanitary/simple landfill. Thus, achieving overall 93.69 % average treatment. The remaining solid waste find its way for unscientific disposal/dumping. Overall average waste segregation is 92.90% and overall solid waste transportation is 98.95 %.

The state has positively adopted the SWM Rules 2016 in totality and is working towards scientific management of solid waste in ULBs of the state. The state has a robust solid waste management policy in accordance with the Solid Waste Management Rules 2016 and lays stress on 100% segregation, collection transportation & processing of wet waste through composting, bio-methanization etc, Dry waste recycling, reuse and recovery through establishing Material Recovery facilities, Landfilling of inert, Processing of legacy waste through biomining.

ULBs are practicing segregation of waste at source and adequate provisions are made in Solid Waste Management DPRs for achieving 100% segregation of waste at source. ULBs in state are segregating waste into three categories wet, dry and domestic hazardous waste.

Processing of Waste:

Vehicles deployed for collection and transportation of waste have two compartments for dry and wet waste. Segregated waste is further segregated at processing facility and then scientifically processed. Maharashtra is the only state to have registered its own brand "Harit Maha City Compost" for promotion of marketing and sale of city compost which is as per the FCO standards and SWM Rules 2016.

Dry waste collected form the city is further segregated into paper, plastic, glass, metal etc. through secondary segregation process at transfer stations or the designated material recovery facility (MRF) in the city or at solid waste treatment facility. After secondary segregation of dry waste into paper, plastic, glass, metal etc.is being recycled through local sellers in the city, to recyclers in the region or to the waste processing plants in nearby metro cities through prescribed processes.

For treatment of dry waste technical options such as preparation of Refused Derived Fuel (RDF), use of plastic in roads, preparation of oil or granules from plastic etc. are also used in some municipal corporations.

ULBs have integrated rag pickers into formal system and involve them for recycling and recovery of waste. Rag pickers are provided with identity cards, basic facilities and personal protective equipment.

In the Mumbai region, Municipal Corporation of Greater Mumbai has mandated all bulk generator of solid waste i.e. having area greater than 5000 sq. Mtr to provide in-situ treatment of solid waste generated in their premises. This practice is resulted in reduction of waste generation.

Bio-mining of legacy waste

Many ULBs in state have accumulated legacy waste at processing facility due to absence of treatment facilities in past. Biomining of legacy waste has been started and 141 sites have been either reclaimed or capped where legacy waste was accumulated.

Maharashtra Pollution Control Board has prepared Region wise abstract showing a summary statement of all local bodies indicating class, populations, Quantum of Solid Waste generations, treatment, adopted technologies for solid waste treatment, source segregation percentage and transportation percentage as per form IV submitted by ULBs.

Region wise total number of ULBs statement is enclosed as Annex-I.

A Statement of Municipal Solid Waste generation and treatment in the State is enclosed with graphical representation as **Annex-II**. A Summary Statement on progress made by Cantonment Board (Army establishment) in respect of waste collection, segregation, transportation and disposal in the State of Maharashtra is enclosed as **Annex-II A.**

A Summary Statement on progress made by local bodies in respect of waste collection, segregation, transportation and disposal in the State of Maharashtra is enclosed as **Annex-III**.

Solid Waste Generation and Treatment By Cantonment Boards

Annexure-III

MAHARASHTRA POLLUTION CONTROL BOARD

A SUMMARY STATEMENT ON PROGRESS MADE BY LOCAL BODY IN RESPECT OF IMPLEMENTATION OF SCHEDULE-II

Maharashtra is one of the urbanized states in the country. The state is having total 396 Nos. of Local Bodies. ULBs installed 378 composting plants as a waste processing facility. Also 89 vermin-composing facilities are installed, 30 bio-methanization plants are installed, 01 waste to Energy plant and 12 RDF plant installed. The 382 landfill sites are identified. The Bio-medical waste and industrial hazardous waste generated in the area of local bodies is not mixed with MSW and such waste is disposed of separately in accordance with provisions made under BMW Management Rules, 2016 and Hazardous and Other Wastes (Management and Trans Boundary Movement) Rules, 2016. For the disposal of Hazardous waste, 4 no. of common Hazardous waste treatment & disposal facility have been developed in the State. For the disposal of the Bio-medical waste, 30 number of Common Bio-medical waste treatment facilities have been provided.

The main constraint for the effective implementation of MSW Rules & setting up of waste processing facility for local bodies is non-availability of suitable land. Considering the constraint, the Urban Development Department, Govt. of Maharashtra has passed order regarding formation of District level committee in every District under the Chairmanship of District Collector. The main object of district level committee is to identify & select waste processing and landfill sites. The Committee comprises of 11 members of various concerned department. While identifying the suitable location for landfill and waste processing site, a care is taken by the District level committee that the site should be away from habitation clusters, forest, water bodies, monuments, wet lands and places of important cultural, historical and religious aspect including CRZ areas.

Initiative taken/proposed by the MPC Board:

- Board has developed web portal for urban local bodies to monitor daily and monthly data for waste generation, segregation, collection, transportation from administrative ward and its proper treatment. All corporations are submitting the details of waste collected, transported and treated in concern wards. Hence it is resulted in self-certification and self-audited by local bodies.
- Board constantly issuing notices/DO letters/directions to the Municipal Corporations/Councils for implementation of SWM Rules, 2016.
- Hon'ble Chairman has issued Directions under section 5 of the Environment (Protection) Act, 1986 to all local bodies for implementation of Solid Waste Management Rule, 2016.
- Board has issued environmental compensation notices to 168 and 114 local bodies with respect to solid waste management and legacy waste management respectively.
- Board has initiated the concept of providing financial and technical assistance to Municipal Councils and Nagarpanchayats for setting up Solid Waste Management facility towards abatement and control of pollution.
- Board has prepared Model Tender Document on solid waste management for local bodies and same is hosted on Boards website
- Board has also constituted Technical Advisory Committee for State level for implementation of SWM Rule 2016 in the State of Maharashtra.
- Board has scrutinized of authorizations and the treatment technology prepared by Local Body by MSW Committee. The members of committee are from All India Institute of Local Self Govt & Ex. Dy. Commissioner of Municipal Corporation of Greater Mumbai.
- For effective implementation and compliance of these Rules, Board pursued the matter with Principal Secretary, Urban Development Department, GOM requesting them to look personally into the matter for compliance.

Gaps and issues in Implementation:

- Training for the staff in the solid waste management department to improve efficiency and safety standards may be required.
- Quantification of waste data.
- There is lack of personnel operating at the processing facility.
- The current collection and transportation system is not optimized.
- Lack of management skill with Local Bodies
- Non availability of suitable land for handing over to concerned local bodies which are not having their own land.
- Local Community resistance.
- Inadequate finance for management of Solid Waste by Local Bodies
- Selection of proper waste processing technology with respect to quantity of waste generation including waste to energy plants.
- Lack of public awareness/participation.
- Unsegregated Waste at Source.

Suggestions:

- ULBs shall be appoint Environment officer to deal with SWM, C & D waste and other waste management.
- Public awareness and involvement of people in the segregation of waste.
- Provision of adequate financial assistance to ULB for effective implementation of SWM Rules, 2016.
- Suitable technology adaptation to different group of ULB's.
- Form expert group to redefine to site selection criteria considering advance technology and need for decentralize treatment plant.
- May consider of creating authority for selecting, providing and operating the MSW facility by itself or on BOOT basis at each stage.
- Identification of landfill and waste processing sites by State Government and handover to concerned local bodies.
- Research and development on low cost standard models.

PART B

Towns/cities

Total number of towns/cities : 403

Total number of ULBs : 396 + 07 Cantonment Boards

Number of class I & class II cities/towns : Corporations - 27

A Class - 18
B Class - 70
C Class - 150
Nagar Panchayats - 131

Cantonment Boards - 07

Authorization status (names/number) in this year

Number of applications received : 109

Number of authorizations granted : 32

Authorizations under scrutiny : 67

Authorizations Rejected : 10

SOLID WASTE Generation status

Solid waste generation in the state (TPD)	: 23530.57*
	00044.44
Collected	: 23044.44
Treated	: 19980.22
Scientifically Landfilled	: 2066.64
Dumped	: 997.14 (Unscientifically Dumping)
Dumpeu	. 337.14 (Unscientifically Dumping)

^{*} In the Mumbai region, Municipal Corporation of Greater Mumbai has mandated all bulk generator of solid waste i.e. having area greater than 5000 sq. Mtr to provide in-situ treatment of solid waste generated in their premises. This practice is resulted in reduction of waste generation.

Compliance to Schedule I of SW Rules (Number)

Good practices in cities/towns includes IEC, training, public awareness : 256

House-to-house collection : 403 ULBs

Segregation at Source : 391
Storage : 186

Covered transportation : 396 ULBs

Processing of SW (Number): Solid Waste processing facilities setup for ULBs

Composting							
No. of Cities/ULBs	No. of Plant installed
