Date: 16/04/2019

CIRCULAR

Sub: Stack sampling of star rating priority industries

The M.P.C. Board has undertaken a pioneering transparency initiative through the Star-Rating Programme by publishing industrial TPM emission level in a comprehensible manner. The programme was inaugurated on World Environment Day by the Hon'ble Chief Minister on World Environment Day (5 June 2017). Currently, more than 300 industries have been enrolled in the programme.

Regarding expanding the programme, Star Rating priority industries are included in the randomized scheduler every month. Stack sampling needs to be carried out for these industries. It has been observed that during December 2018 to January 2019, stack samples were collected for only 50% of the Star Rating priority industries.

Therefore, it is here by directed to ensure that stack sampling is carried out for the Star Rating priority industries monthly. The lists of industries are attached for your reference. The industries in Annexure - 1 are required to be sampled in April, these industries require only one more sample to be included into the Star Rating Programme. Industries in Annexure - 2 need to be sampled for two consecutive months (April and May both), so that these industries can be considered for the programme.

(E Ravendiran, IAS)
Member Secretary

Annexure - 1

Industries that need to be stack sampled in April (only one more stack sample is required for these industries to qualify for the Star Rating Programme)
