CIRCULAR

Sub- NOCs for Establishment / Expansion cf Industrial Units in the CETP/s Areas, where the CETPs are not working satisfactorily.

Ref – 1. Central Polution Control Board letter dated 2nd Sept 2008
2. MPC Board's Circular dated 17/11/2008
3. Communication to the Member Secretary, CPCB dtd.21/5/2009.
4. Application for NOC's from MIDCs Kurkubh vide letter dated
19/5/2011 and respectively.
5. Office Memorandum issued by the Advisor tc the Chairman,
Ministry of Environment & Forests, Govt.of India dtd.4/7/2011.

The Central Pollution Control Board had issued Direction under section 18(1)(b) of the Water (Prevention and Control of Pollution)Act 1974, directing the Maharashtra Pollution Control Board to initiate monitoring programme for all CETPs and to take follow up action against industries/CETPs, not complying with the prescribed standards. MPCB was further directed not to permit expansion/establishment of the industrial units in the areas, where, the Associated CETPs are not complying with the required standards and not having adequate hydraulic load capacity.

In pursuance of the said directions, the then Member Secretary has issued circular to the Chief Executive Officer, MIDC, Andheri and General Manager, District Industry Center- Raigad, Ratnagiri, Pune & Solapur dtd.17/11/2008, pointing out that the performance of CETPs at MIDC- Mahad, Roha, Lote, Kurkumbh & Solapur is not satisfactory and they were requested not to allow the plots/grant SSI registrations to any new establishments / expansion in these MIDC areas without permission of the Board.

Subsequently, the Board taking into consideration various representations received from the industries, the Chamber of Small Scale Industries Association stating that stoppage of allotment of plots for expansion/new industrial establishments will affect further growth of the industries and economic development and has prepared the Guidelines on the basis of no increase in pollution load of CETPs and ensuring that the performance of CETPs will not be affected, the industries generating concentrated incinerable effluent sent it to CHWTSDF for incineration or the industries not generating trade effluent can be permitted. This was brought to the notice of the Member Secretary, Central Pollution Control Board, New Delhi by starting implementing those Guidelines. A copy of the said letter dtd.21/05/2009 is enclosed for ready reference (**Annexure-'A'**).

The Board has received a list of number of industries for grant of NOC for the allotment of plot/s for expansion/new industrial establishments through MIDCs Kurkumbh vide letter dated 19/5/2011 and respectively. The project proponents are taking personal follow up with the Board Office in respect of taking decision on the communications received from the MIDC Kurkumbh and Ratnagiri in respect of allotment of the plot about a list of names of the industries communicated to the Board from time to time.

The Board has referred the matter to the HoDs at the Board Office to discuss and to recommend suitably. The issue was discussed at length in the HoD's Meeting held on 18/10/2011. The HoDs perused all the correspondence in respect of grant of NOC for allotment of plots in the MIDCs where CETPs are not working satisfactory. The Office Memorandum issued by the Advisor to the Chairman, Central Pollution Control Board in respect of the consideration of the proposals regarding Ratnagiri and Sindhudurg Districts of Maharashtra with reference to the extension of moratorium made applicable to the Ratnagiri & Sindhudurg Districts for establishment of the projects requiring Environment Clearance, was taken into consideration.

Therefore, the HoDs were of the considered view that on the lines of the Office Memorandum dtd.4/7/2011, the Board may consider grant of NOC to the Plots in the MIDCs , where CETPs are not working satisfactorily subject to the condition that the industries having zero discharge and/or using cleaner technologies subject to the achievement of stringent the standards laid down in the consent order, which confirmed to the stream standards unless the disposal of treated effluent is on land for irrigation purpose or gardening and tree plantation or otherwise recycled/reused in the process itself can be permitted with the undertakings to achieve zero discharged and not to disposed off treated effluent to CETP till up gradation of CETPs and ETPs are completed.

Instead of considering grant of individual NOCs for the allotment of plot in each case, the MIDC can take suitable decision at the time of allotment of plot, on the basis of preliminary examination of the process and generation of wastes and an undertaking from the industry concerned that subject to the condition that the industries having zero discharged and/or using cleaner technologies subject to the achievement of stringent standards laid down in the consent order, which will be confirmed to the stream

standards unless the disposal of treated effluent is on land for irrigation purpose or gardening and tree plantation or otherwise recycled/reused in the process itself can be permitted with the undertakings to achieve zero discharged and not to disposed off treated effluent to CETP till up gradation of CETPs and ETPs are completed as well as by imposing specific conditions to that effect in the allotment of plot and making it clear that in case of violation, the MIDC reserves its right to cancel the allotment and to take back the possession of the plot. Thereafter at the time of grant of consent to establish, the MPCB will asked the project proponent to submit a detail proposal about the proposed expansion/ modernization / new industrial establishment ensuring that the above condition in respect of zero discharge / utilization of treated effluent and not to discharge it into CETP till upgradation is being completed. Henceforth, the MIDC will not refer the cases of allotment of plot unless in a particular case, it may require the guidance of the Maharashtra Pollution Control Board on account of implication of the process generating effluent and its disposal system.

The concerned Regional Officer and Sub-Regional Officer will ensure that the Board will continue its monitoring programme for all the CETPs atleast every quarter and will take follow up action against the industries and the CETPs not complying with the standards. The lists of industries communicated by the Regional Officer, MIDC, Pune-3, dtd.19/05/2011 alongwith one of the application received from M/s.Modepro India Pvt.Ltd., dtd.23/11/2011 and the Incharge Sub-Regional Officer, MPCB, Chiplun dtd.18/5/2011 are enclosed (**Annexure-'B'**) for doing the needful in the matter as per the Guidelines laid down in the above letter and earlier letter written to the Member Secretary, CPCB, dtd.21/5/2009. Further applications received by the MIDC for the allotment of plot/s and all earlier applications received by the MIDC for allotment of plot pending for this clarification, may be disposed off at the MIDC level itself, by following strictly above Guidelines.

(Milind Mhaiskar)

Mumbai - 400 022
Date: 21/05/2009

To:
Member Secretary,
Central Pollution Control Board,
Parivesh Bhawan, East Arjun Nagar,
Delhi-110 032.

Sub: Directions under section 18(1)(b) of the Water (Prevention & Control of Pollution) Act, 1974.

- Ref : 1. Board Office letter vide no. BO/RO(P&P)/TB/B-4328 dtd. 21/08/2007.
2. Directions u/s. 18(1)(b) of the Water (Prevention & Control of Pollution) Act, 1974 from Chairman, CPCB vide no. B-22013/2/PCI-III/2008 dtd. 02/09/2008.
3. Board Circular vide no. BO/RO(P&P)/Circular/B-6819 dtd. 17/11/2008.
4. Prin. Secretary (Industries) letter vide no. MPC-2009/RRNO.174/IND-2 dtd. 12/02/2009.
5. Chamber of Small Scale Industry Associations letter through Development Commissioner (Industry) vide no. UM/KOSIYA09/301 dtd. 04/04/2009.

With reference to above subject about directions u/s. 18(1)(b) of the Water (Prevention & Control of Pollution) Act, 1974 vide above ref. (2) that establishment/ expansion of industrial units in areas where CETPs are not complying with the standards should not be permitted. Therefore, Board has issued circular vide above ref. (3) to MIDC, Industries department, etc. and requested not to allot the plots/ grant SSI registrations to any new Establishment/ Expansion in MIDC Mahad, Roha, Lote, Kurkumbh, Solapur area without permission of the Board to comply the CPCB legal directions.

Now, Board has received representation from Chairman, CHEMEXCIL followed by letter from Prin. Secretary (Industries Department), Mantralaya, Mumbai vide above ref.(4) and Chamber of Small Scale Industry Associations through Development Commissioner (Industry) vide ref. (5) requesting MPCB not to stop the allotment/grant of permissions for Expansion / new Establishment of industrial units in MIDC areas as it will affect further growth of industrial area and the economy of the country. The representative from Mahad Manufacturing Association and Lote Manufacturing Association has also raised this point in Boards regular CETP review meeting convened by Member Secretary. The issue was discussed with Chairperson and technical HOD's of MPCB. It was decided to prepare the guidelines to permit Expansion / new Establishment of industrial units in such MIDC area so that pollution load at these CETPs will not increase and performance of CETP will not be

affected and which will not violate the basic premise of the order of the CPCB. Accordingly, following guidelines are prepared which are approved by Chairperson of MPCB.

1. The industries which are ready to provide effluent treatment plant including tertiary treatment and recycle 100 % treated effluent in the process and propose to achieve zero discharge may be permitted.
2. The existing industries having Effluent Treatment Plant & complying consented standards may be permitted for expansion / diversification of product if there is " NO INCREASE IN POLLUTION LOAD" in respect of water and waste water aspect.
3. The industries which are generating concentrated incinerable effluent (high COD streams) & ready to send it to CHWTSDF for incineration may be permitted.
4. The industries which are not generating trade effluent may be permitted.
5. The permission may also be granted for new Establishment of industrial units to whom MPCB has given possession before issuance of CPCB directions u/s. 16(1)(b) of Water Act, 1974 dtd. 02/09/2008, with above mentioned conditions.
6. The industry shall ensure that the design characteristics of inlet effluent to CETP shall not change due to their production activity.

Secondly, I would like to bring to your notice that Ministry of Environment & Forest, Govt. of India is also granting Environmental Clearance to industries to be located in above mentioned areas.

In view of above, we will ensure that load to CETP shall not increase and performance of these CETPs shall not be affected while allowing industries as per above guidelines without violating the basic premise of the order of the CPCB. In addition, various steps like increased/ periodic monitoring and vigilance of industries, upgradation of CETPs, punitive measures like closures of violating units, etc. are being undertaken and which is being reflected in gradual improvement of the performance of these CETPs.

With Regards,

 (Sanjay Khandare)
 Member Secretary

Dated 4th July, 2011

OFFICE MEMORANDUM

Sub : Consideration of proposals regarding Ratnagiri and Sindhudurg districts, Maharashtra.

This has reference to the Ministry's Office Memorandum of even No. dated 16th August, 2010 and its subsequent amendments dated 26th August, 2010, 3rd January, 2011 and 25th April, 2011 regarding extension of moratorium upto 30th June, 2011 on consideration of projects from the districts of Ratnagiri and Sindhudurg, Maharashtra under the EIA Notification, 2006 received by this Ministry or by the Maharashtra State Environment Impact Assessment Authority (SEIAA).

The decision on lifting of moratorium is linked to the submission of the Report by the Western Ghats Ecology Expert Panel (WGEEP). The WGEEP has requested for extension of time upto 31st July, 2011. It is also noted that important projects are proposed in these two districts and there are some projects proposed in the notified industrial estates.

Keeping in view the above and in continuation to the OM of 25th April, 2011 regarding lifting of moratorium for sand mining for two years in non-CRZ areas, the moratorium is extended for consideration of projects in Sindhudurg and Ratnagiri districts, Maharashtra upto 30th August, 2011 except for:

- (i) The projects of National importance.
- (ii) The projects which are located in the notified industrial estates, preferably with zero discharge & improved technologies and which were received for TDR or EC before the moratorium was imposed in August, 2010.

This issues with the approval of the Competent Authority.

Dear Sir,

Sub: Allotment of plot at Kurkumbh MIDC.

Application of this industry
not received in P.M.D.
Central Registry also
checked.
A file has been moved to
NOC in sept'11, which
is under process.
Submitted
At Gashet
24/11/11

CH

We are into manufacturing of pharmaceutical intermediates & bulk drugs. We have submitted our application to MIDC for allotment of plot at Kurkumbh near Pune, almost 4 months ago.

As understood from MIDC, our case has been referred to MPCB for its NOC for being Zero Discharge unit. Also the case is pending at MPCB for last 3 months with absolutely no response. These delay is causing our overseas customers to shift to alternate suppliers in china for our products and this will have serious consequences for our company. Further it will also result in loss of valuable foreign exchange to our country.

We therefore, request you to treat this matter as an extremely urgent and issue the NOC as early as possible.

Your prompt action and reply will be highly appreciated.

Thanking You,

Yours Faithfully,

For, Modepro India Pvt Ltd.
