Non-submission of the required documents or submission of the documents in a different format/ contents may lead to the rejections of the bid proposal submitted by the bidder.
2. The bidder should ensure that all the required documents, as mentioned in this RFP/ bidding document, are submitted along with the bid and in the prescribed format only.
3. The prices should be quoted in Indian Rupees only.
4. The Bidder is expected to price all the items and services sought in the RFP and proposed in the technical proposal. The Bid should be comprehensive and inclusive of all the services to be provided by the Bidder as per the scope of his work and must cover the entire Contract Period.
5. MPCB may seek clarifications from the Bidder on the technical proposal. Any of the clarifications by the Bidder on the technical proposal should not have any commercial implications. The Financial Proposal submitted by the Bidder should be inclusive of all the items in the technical proposal and should incorporate all the clarifications provided by the Bidder on the technical proposal during the evaluation of the technical offer.
6. Financial Proposal shall not contain any technical information. Similarly, technical proposal with any financial cost related information shall be summarily rejected and the bidder shall be disqualified from the tender process.
7. It is required that the all the proposals submitted in response to this RFP should be unconditional in all respects, failing which MPCB reserves the right to reject the proposal.
8. Proposals sent by fax/ post/ courier shall be rejected.
9. It shall be the sole responsibility of the bidder to ensure that all the documents required for the Eligibility criteria and the Technical Evaluation of the bid are uploaded on the portal well within time and MPCB shall not entertain any re- presentation from any bidder, who fails to upload the

requisite documents within the stipulated time and date on account of any technical issues related to low internet connectivity, size of the files to be uploaded etc. Therefore, the bidders are notified that they must read the instructions / information given on the homepage of the e-tender portal and must understand all the nuances of technology in advance.

### **3.15 Late Proposal**

Proposals received after the due date and the specified time (including the extended period if any) for any reason whatsoever, shall not be entertained and shall not be opened in the e-Tendering system.

### **3.16 Modification and Withdrawal of Proposals**

1. No Proposal shall be withdrawn in the interval between the deadline for submission of proposals and the expiration of the validity period specified by MPCB in the RFP.
2. Entire EMD shall be forfeited if any of the Bidders withdraw their proposal during the validity period.

### **3.17 Non-conforming Proposals**

A Proposal may be construed as a non-conforming proposal and ineligible for consideration:

1. If it does not comply with the requirements of this RFP.
2. If the Proposal does not follow the format requested in this RFP or does not appear to address the particular requirements of the MPCB.

### **3.18 Acknowledgement of Understanding of Terms**

By submitting a Proposal, each Bidder shall be deemed to acknowledge that he has carefully read all sections of this RFP, including all forms, schedules, annexure, corrigendum and addendums (if any) hereto, and has fully informed itself as to all existing conditions and limitations.

### **3.19 Bid Opening and Evaluation Process**

1. Total transparency shall be observed and ensured while opening the Proposals/Bids. All Bids shall be opened in the presence of Bidder's representatives who choose to attend the Bid opening sessions on the specified date, time and address.
2. MPCB reserves rights at all times to postpone or cancel a scheduled Bid opening.
3. The Bidder's representatives who are present shall sign a register evidencing their attendance. In the event of the specified date of Bid opening being declared a holiday for MPCB, the bids shall be opened at the same time and location on the next working day. In addition to that, if the representative of the Bidder remains absent, MPCB will continue process and open the bids of the all bidders.
4. During Bid opening, preliminary scrutiny of the Bid documents shall be made to determine whether they are complete, whether required Bid Security has been furnished, whether the Documents have been properly signed, and whether the bids are generally in order. Bids not conforming to such preliminary requirements shall be prima facie rejected. MPCB has the right to reject the bid after due diligence is done.

### **3.20 Tender Evaluation Committee**

1. MPCB shall form a Tender Evaluation Committee (hereinafter referred to as "TEC") to

evaluate the bids.

2. The TEC shall evaluate the responses to the RFP and all supporting documents/ documentary evidence. Inability to submit requisite supporting documents / documentary evidence, may lead to rejection.
3. The decision of the TEC in the evaluation of responses to the RFP shall be final. No correspondence will be entertained outside the process of negotiation/ discussion with the Committee.
4. The TEC may ask for meetings with the bidders to seek clarifications on their proposals. The bidder shall submit requisite supporting documents/ certificates on the credentials. The committee may visit bidder's client site to validate the credentials/ citations claimed by the bidder.
5. The TEC reserves the right to reject any or all proposals entails the basis of any deviations.
6. Each of the responses shall be evaluated as per the criteria and requirements specified in this RFP.
7. The TEC would submit its decision to the competent authority whose decision would be final and binding upon the bidders.

### **3.21 Evaluation Process**

1. TEC shall review the proposal of the Bidders to determine whether the requirements as mentioned in Section 3.22 of the RFP are met. Incomplete or partial Proposals are liable for disqualification.
2. Bid Evaluation shall be conducted following **Quality Cum Cost Based Selection (QCBS)** methodology.
  - A. In the first stage, Technical Proposals shall be opened and evaluated as per the Minimum Eligibility criteria mentioned in Section 3.22 of the RFP. **Bids not meeting the Minimum Eligibility Criteria will be summarily rejected.**
  - B. Bids qualifying through the Minimum Eligibility Criteria will be further evaluated for their objective evaluation based on the Criteria mentioned in section 3.23. A cut off for the technical score will be defined. The Technical scoring for respective bidders will be worked out as elaborated in Section 3.25.
  - C. In the Second stage, Financial Proposal of those Bidders who qualify in Eligibility Criteria, shall be opened. All Bids shall be opened in the presence of Bidder's representatives who choose to attend the Bid opening sessions on the specified date, time and address. The Financial / Price Bids, of those bidders who do not achieve the cut off / minimum technical qualification score, will not be opened.
  - D. At the end of two stages, Weighted Technical and Price bid scores (only of those bidders who qualify as per the minimum Technical Score) will be added to arrive at a Composite score of each of the bidder. The Bidder with the highest Composite score will be declared as the Successful Bidder, subject to all supporting documentation being in order.
3. Evaluation and award of Contract shall be done as per provisions of Maharashtra State Government Rules and rules defined in this RFP.
4. Please note that TEC may seek input from their professional, external experts in the bid evaluation process.

### **3.24 Commercial Bid Evaluation**

1. The selection of successful Bidders will be done on Quality cum Cost Based Selection (QCBS) methodology. The methodology and respective weightages are mentioned in the Section 3.25 below.
2. The Bidders complying with the Eligibility Criteria mentioned in Section 3.22 and who have paid the Tender Fees and EMD Fees as specified in the RFP, shall be considered as "substantially responsive" bids.
3. The Commercial Bids will be opened on the prescribed date in the presence of bidder representatives or as decided by MPCB.
4. The bidders should necessarily give the commercial details in the format given in this RFP. The commercial proposals should be given in the prescribed format only and in accordance to the details, terms and conditions as mentioned in the RFP (hence the bidder is expected to understand the RFP in all respects).
5. In case the selected bidder does not quote for or provision for cost/expenses required to meet the requirements of the RFP, the selected bidder shall be solely responsible for those and shall provide them, without any additional cost to MPCB.
6. The bidder is expected to price all the items and services sought in the RFP and proposed in the Technical Proposal. In case a Bidder fails to mention the cost of a line item, the bidder will be disqualified from further evaluation. The Bid should be comprehensive and inclusive of all the services to be provided by the bidder as per the scope of its work and must cover the entire Contract Period.
7. The Commercial Bids of non-qualified Bidders shall be rejected and EMD shall be refunded only after work order is awarded against this tender to the Successful Bidder.
8. In the event that any successful bidder withdraws or is not ready for engagement for any reason, MPCB may invite the Bidder with the Bidder having the second best composite score.
9. MPCB may extend the validity of this contract based on the mutual consent with the successful Consultant.
10. The detailed roles and responsibilities of Selected Agency are mentioned in Scope of work.
11. The Bid Evaluation Committee reserves the right to accept or reject any or all bids without giving any reasons thereof.
12. MPCB does not guarantee that all line items from Commercial Format shall be utilized by MPCB. The actual line items used may be more or less. The payment shall be made for only those line items which are used based on unit cost quoted for the particular item on actual work is undertaken. MPCB can vary the quantity by  $\pm 25\%$  during the tenure of the contract and the successful bidder will have to undertake the deliverables at the rates mentioned in the bid.
13. The Bidder needs to account for all expenses in the Financial Bid including transport, insurance, consumables, etc. along with out of Pocket expenses due to Boarding, Travelling, Lodging and other related items. MPCB shall not be liable to pay any additional cost apart from that mentioned in the Commercial Bid Format filled by the bidder and as specified in the RFP.
14. MPCB may seek clarifications from the bidder on the Technical Proposal. Any of the clarifications by the bidder on the Technical Proposal should not have any commercial implications. The Commercial Proposal submitted by the bidder should be inclusive of all the items in the Technical Proposal and should incorporate all the clarifications provided by the

bidder on the Technical Proposal during the Technical Evaluation.

15. The bidder shall fill rates for all the line items. If rate for any item is not provided by the bidder or provided in format other than defined in this RFP, then MPCB reserves the right to reject the bid.
16. The rates specified by the Bidder in this RFP for all line items shall be valid for entire duration of contract.
17. The Commercial Proposal shall not contain any technical information.

### **3.25 Quality cum Cost based Selection Methodology for Evaluation of this RFP**

The following methodology and weightages will be used for objective evaluation of each of the bids.

#### **A. Technical Bid Evaluation**

Based on the documentation submitted by each of the bids, the bids will be given a score out of Maximum 100. Each responsive Bid will be attributed a technical score denoted by symbol "S(t)". The technical score shall be out of a maximum of 100 marks.

If in MPCB's opinion, the Technical Bid does not meet the minimum technical specifications & service requirements or is otherwise materially deficient / inconsistent in any other aspect; the Bid shall be declared Technically Evaluated & Non-Responsive and shall not be considered for further evaluation.

After technical evaluation, MPCB will rank the bidders in descending order of their technical scores with the top ranked bidder having the highest technical score. If any bidder is found to be technically inadequate to the requirements of MPCB, i.e. if  $S(t) < 70$ , then that bidder's bid would be deemed non-responsive for further evaluation and would not be considered further in the bidding process.

If in case, after technical evaluation, only one bidder is found to be responsive & eligible, i.e. if the technical marks of only one bidder are more than or equal to **70**, the Board will decide an acceptable price band and open Price Bid of the only eligible bidder. If the price bid of the bidder falls within the price band specified by the Board, the bidder will be declared as the **SUCCESSFUL BIDDER**.

#### **B. Financial Bid Evaluation**

The price bids of only technically successful bidders whose technical Bids have been awarded 70 or more marks will be opened.

The evaluation will be carried out if the Price bids (Exclusive of SGT & other taxes) are complete and computationally correct.

The lowest Price bid denoted by symbol "P (m)" will be allotted a Price score of 100 marks. The Pricescore of all the bidders will be denoted by the symbol "S (p)". The Price score of other bidders will be computed by measuring the respective weighted Price bids against the lowest bid i.e. P (m). These Price scores will be computed as:  $S(p) = 100 * (P(m) / P(b))$  where P(b) is the weighted Price bid of the bidder whose Price score is being calculated. The Price score shall be out of a maximum of 100 marks.

### **C. Computation of Composite score**

The composite score is a weighted average of the Technical and Price Scores. The weightages of the Technical vis-à-vis the Price score is 0.70 of the Technical score and 0.30 of the Price score. The composite score (S) will be derived using following formula:

$$S = (S(t) * 0.70) + (S(p) * 0.30).$$

Thus, the composite score shall be out of a maximum of 100 marks and will be computed up to TWO (2) decimal points.

The responsive bidders will be ranked in descending order according to the composite score as calculated based on the above formula. The highest-ranking vendor as per the composite score will be selected as successful bidders. However in order to ensure that MPCB gets best solution in technical terms, MPCB reserves the right to enter into negotiation with bidder having highest technical score and place order with this bidder at a suitable price.

### **D. Award Criteria**

Final choice of MPCB to award this project to a suitable bidder to execute this project shall be made on the basis of composite scoring arrived as per formula mentioned above.

The Bidder having the highest Composite Score will be termed as the Successful Bidder. In case, two or more bidders have the same composite scores, the Bidder with the highest technical score will be declared as the successful bidder. In case, two or more bidders have the same composite scores & technical scores, MPCB will decide further criteria of evaluation, which will be binding on all bidders to accept without contest.

### **3.26 RFP Selection Process**

1. MPCB through this Request for Proposal (RFP) intends to get quote only from reputed technically qualified bidders.
2. All the bidders will be assessed against the Eligibility criteria mentioned in Section 3.22
3. The financial offer of the bidders fulfilling the Eligibility criteria shall be opened for further evaluation. Bidders are also requested to submit their financial quotation in the format provided in the RFP.
4. In case of discrepancies between rates quoted in amounts and in words by the bidder, the lower of the two will prevail and will be used to determine the Successful Bidders as per criteria provided in the RFP.
5. If any information provided by the Bidder is found to be inaccurate at any stage of the RFP process, MPCB may, at its discretion, reject the offer and no correspondence will be entertained in this regard. Submission of wrong and / or false information may also disqualify the Bidder from any future work from MPCB.
6. MPCB reserves the right to negotiate with the Successful Bidders as per CVC guidelines or any equivalent norms. If the negotiation becomes unsuccessful then MPCB may negotiate with the next qualified bidder.

### **3.27 Bid Validity**

1. The offer/proposals submitted by the Bidders shall be valid for a minimum period of 180 days after the date of bid submission prescribed by the department.
2. In exceptional circumstances, prior to the expiration of the bid validity period, the department

may request bidders to extend the period of validity of their bids.

3. The request and the responses shall be made in writing. In event of such extension, department shall request Bidder for extension of bid validity and submit new bid security to cover the extended period of validity of their bids.
4. A bidder may refuse the request without forfeiting its bid security. A bidder granting the request shall not be required or permitted to modify its bid.
5. If the date up to which the bid is to remain valid happens to be a holiday for the department, the bid shall automatically remain valid up to the next working day.

### **3.28 Price and Information**

1. The bidder shall quote for this project as per the requirements of the RFP and in the format mentioned in Section 6.2.
2. All the prices will be in Indian Rupees.
3. The bidder should quote the fee considering all costs including the costs for insurance for the Contract Period, travel / stay, daily allowance or any other allowances with respect to their staff deployed for the execution of this project before or after the award of the Contract. The bidders should study the Scope of Work as per Section 4 to understand all the associated costs of the project.
4. The bidder should indicate the GST currently applicable and the same will be reimbursed at actuals as applicable from time to time.
5. The prices, once offered, must remain fixed and must not be subject to change for any reason whatsoever within the period of the validity of the proposal and the contract. No revision of the fee shall be made on account of any variations in costs of labour and materials, currency exchange fluctuations with international currency or any other cost component affecting the total cost in fulfilling the obligations under the contract. A proposal submitted with an adjustable price quotation or conditional proposal may be rejected as non-responsive.
6. All costs incurred due to delay of any sort, which is attributable to the bidder, shall be borne by the bidder.

### **3.29 Payment Terms**

The following payment terms will be offered to the Successful Bidders upon completing the necessary formalities and rendering deliverables as mentioned in Section 4 (Scope of Work).

1. Within 15 days of MPCB issuing the LoI / LoA / Work Order, the Successful Bidder, at its cost, charges and expenses will submit a PBG for an amount equivalent to 10% of the value of the contract in favour of MPCB. The PBG shall be in the form of a guarantee/s of a Nationalised Bank acceptable to MPCB and shall be valid for FIFTEEN (15) months from the date of LoA / Work Order / Contract OR THREE (3) months after end of the project, whichever is later.
2. The Board will release the payment in a phased manner, based on the timely completion of the Milestones achieved by the Successful Bidder. The Milestones and corresponding payment schedule is mentioned in the table below.
3. All the payments at each stage will be made after deducting penalties for the stage, if applicable. The penalties applicable at various stages are mentioned in Section 3.30

Sr. No.	Target, Milestone, or Reporting Deliverable	Percentage of Total Order / Contract value to be released. in INR
1	on successful installation and commissioning of All Noise Monitoring Stations at Site	80%
2	after successful completion of training to the Officials.	10%
3	after successful completion of the warranty period or on submission of bank guarantee equivalent to 10% till warranty period.	10%

4. All payments will be made vide a crossed cheque payable in Mumbai, within 30 days of submission of invoice, after deducting applicable TDS, if any.

### 3.30 Penalties

It is expected that the Successful Bidder will complete all the deliverables as per the given timelines and as per the expected and defined performance norms. In case there are any defaults / delays from the Successful Bidder during the various phases of execution, MPCB will levy penalties. The same will be recovered from the next stage payment or in the extreme case, by invoking the Performance Bank Guarantee.

In case of any delays on part of the Successful Bidder during the execution period, a penalty of 0.5% of total contract value will be levied on the Successful Bidder and the same will be recovered from the next stage payment due. The overall penalty will be capped at 10% of the order value and in case the delays are more, MPCB can terminate the contract. In such case MPCB reserves the right to invoke the Bank Guarantee citing non-performance as a reason.

MPCB will consider genuine request for extension of time, if so made by the Successful Bidder immediately upon sensing the delay, taking into account the reasons for such extension and grant extension of time at their discretion.

MPCB shall record the reason in such action with facts and figures. The grace period will not be granted if the extension is necessitated due to the default on the part of the Successful Bidder.

### 3.31 Indemnification

The bidder, if selected as Successful Bidder, will agree and undertake that, during the Term of the Contract, it shall indemnify and keep indemnified and otherwise save harmless, MPCB from any third party suits instituted against MPCB which are proved to be because of a direct consequence of the installation and / or use of equipment & services provided by the successful bidder. The Successful Bidder shall indemnify MPCB against all losses and claims in respect of death or injury to any of their personnel, which may arise out of or in consequence of the execution of the project and remedying of any defects therein, and against all claims, proceedings, damages, costs whatsoever in respect thereof or in relation thereto.

### 3.32 Signature

1. A representative of the bidder with a valid Power of Attorney from the Bidding organisation, who is authorized to commit the bidder to contractual obligations, must sign with the bidder's name and seal on all pages of the Bid, including the tender/bid document.

2. All obligations committed by such signatories must be fulfilled.

### **3.33 Conditions under which RFP is issued.**

1. This RFP is not an offer and is issued with no commitment. MPCB reserves the right to withdraw the RFP and change or vary any part thereof, at any stage. MPCB also reserves the right to disqualify any bidder should it be so necessary at any stage.
2. Timing and sequence of events resulting from this RFP shall ultimately be determined by MPCB.
3. No verbal conversations or agreements with any official, agent, or employee of MPCB shall affect or modify any terms of this RFP and any alleged verbal agreement or arrangement made by a bidder with any agency, official or employee of MPCB shall be superseded by the definitive agreement that results from this RFP process. Verbal communications by MPCB to bidders shall not be considered binding on it, nor shall any written materials provided by any person other than MPCB.
4. Neither the bidder nor any of the bidder's representatives shall have any claims whatsoever against MPCB or any of their respective officials, agents, or employees arising out of or relating to this RFP or these procedures (other than those arising under a definitive service agreement with the bidder in accordance with the terms thereof).
5. Until the Contract is awarded and during the validity of the Contract, bidders shall not, directly or indirectly, solicit any employee of MPCB to leave the department or any other officials involved in this RFP process in order to accept employment with the bidder, or any person acting in collusion with the bidder, without prior written approval of MPCB.

### **3.34 Right to the content of Proposal**

1. All proposals and accompanying documentation of the Technical Proposal will become the property of MPCB and will not be returned after opening of the Technical Proposals.
2. MPCB is not restricted in its rights, to use or disclose any or all of the information contained in the proposal and can do so without compensation to the bidders.
3. MPCB shall not be bound by any language in the proposal indicating the confidentiality of the proposal, or any other restriction on its use or disclosure.

### **3.35 Non-Conforming Proposal**

A proposal may be construed as a non-conforming proposal and ineligible for consideration if:

1. It does not comply with the requirements of this RFP.
2. It does not follow the format requested in this RFP or does not appear to address the requirements as specified by the directorate.

### **3.36 Correction of errors**

1. The bidder is advised to take adequate care while quoting the rates. No excuse for corrections in the quoted rate will be entertained afterwards.
2. The corrections or overwriting in bid document should be initialled by person signing the Bid form.

### **3.37 Corrections to Arithmetic errors**

1. In case of discrepancies between Commercial Bid calculated by the bidder in numbers and words, the lower of the two will prevail and will be used to determine the Successful bidders

as per criteria provided in RFP.

2. Bidders shall accept correction of arithmetical errors. Failure to accept the correction in accordance with the same, shall result in the rejection of the Bid.

### **3.38 Disqualification**

The Bid from the bidders is liable to be disqualified in the following cases:

1. Bid not submitted in accordance with the bid document.
2. Technical Proposal contains details related to cost.
3. The bidder qualifies the bid with its own conditions.
4. During validity of the Bid, or its extended period, if any, the bidder increases his quoted prices.
5. Bid is received in incomplete form and / or received after due date and time.
6. Bid is not accompanied by all requisite supporting documents.
7. Information submitted in technical Bid is found to be misrepresented, incorrect or false, accidentally, unwittingly or otherwise, at any time during the processing of the contract (no matter at what stage) or during the tenure of the contract including the extension period if any.
8. Non - fulfilment of any condition / term by bidder.

### **3.39 Acknowledgement of Understanding**

By submitting the proposal, each bidder shall be deemed to acknowledge that he has carefully read all sections of this RFP, including all forms, scope of work, schedules, annexure, corrigendum and addendums (if any) hereto, and has fully informed itself as to all existing conditions and limitations.

### **3.40 Site visit by Bidder**

1. The bidder may visit the relevant Section(s) / Departments at MPCB at any time to be agreed with MPCB and obtain for itself on his own responsibility all information related to any specific process.
2. The visit may not be used to raise questions or seek clarification on the RFP. All such queries or clarifications must be submitted in writing.
3. The cost of such visits to the site(s) shall be at the bidder's own expense.

### **3.41 Award Criteria**

Post the evaluation process indicated in Section above, MPCB will award the Contract to the Selected Agency as defined in this RFP Section 3.25.

### **3.42 MPCB's Right to accept any Bid and to reject any or All Bids**

MPCB reserves the right to accept or reject any Bid, and to annul the bidding process and reject any or all Bids at any time prior to award of Contract, without thereby incurring any liability to the affected Bidder or Bidders or any obligation to inform the affected Bidder or Bidders of the grounds for MPCB's action.

### **3.43 Letter of Intent / Letter of Award**

1. Prior to the expiration of the period of bid validity, MPCB will notify the Successful Bidder(s) in writing or by fax or email, to be confirmed in writing by letter, that its bid has been accepted.
2. The Letter of Intent will constitute the formation of the contract. Upon the Successful Bidder's furnishing of Performance Bank Guarantee, MPCB will promptly notify each unsuccessful bidder(s).

### **3.44 Signing of Contract**

MPCB shall notify the Successful Bidder that its bid has been accepted. The Successful Bidder shall enter into contract agreement with MPCB within the time frame mentioned in the Letter of acceptance to be issued to the Successful Bidder by MPCB.

### **3.45 Term of Contract Agreement**

1. The term of this Contract shall be a period of the period of (6) months from the date of issue of Letter of Award / Work Order / Contract, extension will be subjected to the mutual consent of both the parties and on the basis of the performance of the bidder.
2. In case MPCB is not satisfied with the performance of the selected agency, MPCB reserves the right to terminate the contract with such agency.

### **3.46 Failure to agree with the Terms & Conditions of the RFP / Contract**

Failure of the Successful Bidder(s) to agree with the Terms & Conditions of the RFP / Contract shall constitute sufficient grounds for the annulment of the award, in which event MPCB may invite the next best bidder for negotiations or may call for fresh RFP.

### **3.47 Non-Disclosure Agreement (NDA)**

The Successful Bidder(s) has to sign the Non- Disclosure Agreement with MPCB.

### **3.48 Performance Bank Guarantee (PBG)**

1. Performance Bank Guarantee is governed for supplies and services as follows:
  - a. The bidder shall carry out the supply and services in conformity with the requirements of the RFP, generally accepted professional and technically accepted norms relevant to such projects and to the satisfaction of MPCB.
  - b. The Earnest Money deposited at the time of bid submission would be given back to the Successful Bidder on payment of Performance Bank Guarantee in the form of a Bank Guarantee.
2. The selected bidder shall deposit the Performance Security as follows:
  - a. The Successful Bidder shall at his own expense, deposit with MPCB, and Performance Bank Guarantee from a Nationalised Bank, of value and valid for FIFTEEN (15) months from the date of LoA / Work Order / Contract OR SIX (6) months after end of the project, whichever is later, as defined this tender document.
  - b. The Performance Bank Guarantee should be furnished within 15 Working Days from the date of issue of Letter of Intent / Award OR Work Order OR CONTRACT.
  - c. The Performance Bank Guarantee may be discharged/returned by MPCB upon being satisfied that there has been due performance of the obligations of the successful bidder under the contract. However, no interest shall be payable on the Performance Bank Guarantee.
3. MPCB shall also be entitled to make recoveries from the Performance Bank Guarantee on the following grounds:
  - a. Any amount imposed as a fine by MPCB for irregularities Committed by the bidder.
  - b. Any amount which MPCB becomes liable to the Government /Third party on behalf of any default of the bidder or any of his/her/their agent/ employees or staff.
  - c. Any payment/fine made under the order/judgment of any court/consumer forum or law

enforcing agency or any person working on his behalf.

d. Any other outstanding amount.

4. Once the amount under this clause is debited, the bidder shall reimburse the Performance Bank Guarantee to the extent the amount is debited within 15 days of such debit by MPCB failing which it will be treated as breach of agreement and may lead to termination of agreement with forfeiture of all amounts including interest free Performance Bank Guarantee in favour of MPCB.

### **3.49 Right to Vary the Scope of Work at the time of Award**

1. MPCB reserves its right to make changes to the scope of the work at the time of execution of the resultant Agreement.
2. If any such change causes an increase or decrease in the total value of contract, or the time required for the Bidder's performance of any part of the work under the resultant Agreement, whether changed or not changed by the order, it shall be based on the unit prices quoted by the Bidder or on pro-rata basis. Based on the revised scope, payment shall be calculated based on unit prices OR the pro-rata basis in proportion of the efforts already made and MPCB shall be liable to pay only the revised amount, irrespective of the Total Cost mentioned in the Contract.
3. Payment to the Successful Bidder shall be made as per the schedule given on the basis of the actual completion of scope of work and deliverables by the Successful Bidder to MPCB's satisfaction.
4. The decision of MPCB shall be final and binding upon the Successful Bidder.

### **3.50 Governing Laws**

The contract shall be governed by the laws and procedures established by Govt. of India and Government of Maharashtra, within the framework of applicable legislation and enactment made from time to time concerning such commercial dealings/processing. Any disputes will be subject to the Courts in Jurisdiction of Mumbai

## **Section II: Scope of Work**

## 4. Scope of Work

### 4.1 Detailed Scope of Work

MPCB has planned to establish the Real Time Ambient Noise Monitoring Network with 36 stations with 4G/5G modem for transmission of data to the central receiving station. The Noise Monitoring Stations shall provide real-time data through 4G/5G network at scheduled interval and as and when requested by the users. Each Noise Monitoring Station should be connected and capable of transmitting data to Empaneled Cloud Server of MEITY and also provide data sharing to State Pollution Control Boards / Central Pollution Control Board through Cloud Server. Basic Network Architecture and Layout is shown in Annexures. The Noise monitoring stations shall provide SMS alarms notification to the Central receiving station to warn about overpassed alarm user predefined thresholds as well as for internal system self-diagnosis report.

### 4.2 TECHNICAL SPECIFICATIONS OF REMOTE STATION

The Remote Station for Ambient Noise Monitoring Network should have a standalone operating terminal, appropriate for outdoor installation for continuous measurement of ambient noise. Microphone connected to an advanced acoustic signal processing unit, complete with an electronic measurement and processed-data storage, provided as well with an integrated 4G/5G Noise Monitoring Terminal. The remote station should allow the connection of other meteorological sensors whose measurements can contain interesting correlations with Noise Levels (e.g. pollution, cars counters, wind sensors, etc.).

#### 4.2.1 General Specifications of Noise Monitoring Terminal (NMT) :

NMT consists of a weatherproof cabinet containing a noise level analyzer a communication device for transmitting data to receiving station, a back plate, and an outdoor microphone, all of which can be mounted on a mast.

(i)	Standards	:	IEC 61672-1 (2013) Class 1, Class 1 type for Omni directional
(ii)	Power Supply	:	230v AC $\pm$ 10%Power back up should provide complete power autonomy to the field stations with telemetry enabled for minimum 10 days without charging the internal battery or either by Solar panel or by power supply. Complete power budget calculation to be provided with the technical bid to support the uninterrupted power supply.
(iii)	Time weighting	:	Fast, Slow, Impulse and Peak IEC 61672-1 (2013)
(iv)	Frequency /weighting	:	A and C
(v)	Dynamic Span	:	120 dB or more (20-140 dB)
(vi)	Noise floor	:	<20(A) dB
(vii)	Memory	:	Storage of all the above measured and stored data for at least 1 month at 1-second acquisition rate
(viii)	Calibration	:	Automatic Calibration*
(ix)	Resolution	:	0.1 dB (A)
(x)	Display	:	Auto brightness, alpha numeric, display High viewing angle, high brightness display.
(xi)	Operating Temperature Range	:	-10°C to + 50°C

(xii)	Humidity Range for external devices	:	100% condensing
(xiii)	Humidity range for internal devices	:	95 % RH Non - Condensing
(xiv)	Communication ports	:	RS232, USB, Ethernet/TCP/IP or better
(xv)	Sampling Rate	:	Short Leq time history user selectable from 125ms, 1 second or 2 second etc. Leq, Lmax, Lmin and Ln periods adjustable between 1 minute and 1 hour.
(xvi)	Measured and Stored data	:	(1) Leq, Lmax, Lmin, Lpeak, L10, L50 & L90 . (2) Short time Leq with Measured time and date. (3) 1/1, 1/3 Octaves
(xvii)	Number of Input Channels	:	02
(xviii)	Communication mode with central receiving station/ server	:	4G/5G, internet connectivity, mobile connectivity or better.
(xix)	Programmability	:	Fully Programmable. All functions must be programmable from remote access or direct from the instrument.
(xx)	Diagnostic	:	Self-diagnostic feature should be available.
(xxi)	Essential functions	:	Time Synchronization with central receiving station/ server.
(xxii)	Remote Access	:	Web interface with Web monitoring feature
(xxiii)	Remote Calibration	:	Remote calibration from Central Station
(xxiv)	Solar panel & Accessories	:	minimum 75 watts, along with Solar charge controller (minimum 20 Amp) & External NEMA 4 Enclosure

**\* Class I Type international certification with Horizontal and Vertical reference direction either from LNE, PTB, METAS, CEM or BEV**

#### **4.2.2 Specification for Enclosure for Remote Stations:**

A. Remote Stations: -	
Weatherproof cabinet	Weatherproof enclosure with IP-66 protection suitable for mounting on mast.
Security	Should be supported/equipped with standard sensors to check the unauthorized intrusion and have ability to produce telecommunication alarm if the enclosure has been opened.
Mast	Length of Lattice mast should be 4 meter and to be mounted in a concrete base. The material of the mast should be galvanized and non-corrosive.
Cabling	All cables are armored and protected by conduits
Flexible	There should be provision of adopting/ installing standard interfaces.
B. UPS Enclosure:	Weatherproof enclosure protection suitable for housing of Electric connection, UPS and batteries (6 hrs. backup)

*Note: All the installation and mounting accessories bolts should be of stainless steel to avoid corrosion.*

#### 4.2.3 Specification for Outdoor Microphone:

Standards	IEC 61672-1: 2013 Class1, Class 1 type for Omni directional
Microphone Type	Permanent Outdoor Microphone based on External polarized capsule (for better Temperature and Humidity performance)
Operating Temp	-10°C to + 50°C
Humidity Range external components	100% RH (Condensing)
Humidity Range internal components	95% RH (non - condensing)
Range	20- 140 dB (SPL)
Frequency response	IEC 61672 Class 1 (2013)
Output connector	Compatible with NMT
Pole adapter	Suitable for instrument monitoring
Accessories Required	Bird spike, wind screen, Protected Extension cable

#### 4.3 Specification of Hardware and software for Central Receiving Station

##### 4.3.1 Data processing Workstation PC -01 No

Workstation will be used for data abstraction, visualization from Cloud. Specification for works station is mentioned below:

Make/Company	:	HP/Dell/Lenova Desktop PC
Operating System	:	Windows 10 professional or better at the time of delivery.
Hard disk capacity	:	2 X 1 TB or more
RAM	:	8 GB or more
Processor	:	5th Generation Intel® core I7- 2600s
processor (2.8 hz) or better		
processor (4M cache, up to 3.0 GHz , TPM) or better		
Display	:	25.0"
Accessories	:	Mouse, Bag etc.

Workstation shall be equipped with all accessories like mouse, keyboard, 25" screen, DVD reader/writer, internal audio, External O/P ports, graphic card and any other accessories.

Supplier shall supply one Central OLED 72 Inch led TV for MPC Board office for Real time Noise monitoring display.

##### 4.3.2 Specification of Software for Central Receiving Station

The software and monitoring system should be on cloud-based system enlisted / empanelled by Ministry of Electronic and Information Technology. It can be operated using a standard web browser on local and remote PC. The user interface should be intuitive and easy to use. Provision of Disaster Recovery (DR) site also be considered. Data sharing of mobile stations to MPCBs should be using either web serviced or FTP.

The software should support an Internet browser application and support the following:

- Easy to learn and efficient to use
- Map display of NMTs and noise data
- Simple method to select, sort and analyse data

- Easy ad hoc and complex query support and flexible reporting
- Microsoft Excel and Word templates
- Easy export in a variety of formats
- Screen capture to clipboards and simple incorporation in to reports and templates.
- Workflow interaction to improve work efficiency
- Integration of other environmental sensors such as air quality, water, weather and odour
- The system shall be capable of keeping data on the system and accessible for up to five years.
- A Data backup service should be available.
- The software shall be capable of automatically preparing the reports for the previous day, week, month, quarter and year, and make them available for download and presentation in an Excel spreadsheet.
- The software must be able to integrate the old noise monitoring system and support new noise monitoring terminals.

#### **Software Management:**

- Software capable for requesting, downloading, editing, processing and representation and management of data.
- The software integrates the entire data request commands made to the stations in real time data or data saved in the memory.
- Software allows the user to change and/or modify the configuration of the stations, enable to perform tasks such as date and time synchronization with the computer and adds new measuring channels specifying the different sampling and storage periods, as well as the statistical calculations to be stored.

#### **Hand on Operations**

The following parameters of stations must be configurable for each station.

- Allow the Setting of Date/Time of the station.
- Real time data request from each channel (in table and graphs).
- Downloading of data stored in the station
- Downloading the station's configuration of PC
- Downloading of PC's configuration to the stations
- Channel calibration settings
- Alarm trigger user settings for each station

#### **Data Analysis**

- Data enquiry over several days
- Comparison of readings between stations
- Daily statistics enquiry
- Strip charts of the daily statistics.
- Comparison between the daily statistics of various stations

- Comparison between parameters from the same station or from different stations

### **Visualization of Data**

- Enquiry of data in Table Form
- Enquiry of data in graph form
- Temporary graphs composition window

### **Additional Features**

- Printing of various reports and graphs.
- Zoom in and Zoom out facility with automatic graph scale Resizing
- Stakeholder engagement portal
- Stakeholder App for mobile
- Registers all the events like Information messages, error messages.
- Information of the communications resources used by the PC at that moment
- Exportation of readings to MS-Access or to text files (.txt), MS-EXCEL and XML.
- Creating monitoring environments with “gauges” displaying real time values.
- Configuring maximum and minimum thresholds and sending alarms by e-mail or SMS if data exceeds them or in case of failure or delay of data from any station.
- Customizing maps with icons representing the selected stations. Icons should change their color if there is an alert in a station.
- Creating, enquiring and displaying on graphs new variables using configured parameters and operators (+, -, \*, /, AND, OR, sqr, sin, cos, max, pow, etc.).

Regular updates of software shall be provided on half yearly basis. Software shall be modified as per our requirement and it must include basic and advance statistical tools for data analysis and report generation for managing the huge database.

#### **4.4 Web Enabled Software for data distribution.**

The Web Software Platform must be able for web posting of the data available on the Cloud system, in such a way that all authorized persons with an internet connection would have the possibility to access to the information of all the noise monitoring terminals. The user can customize the way to display the noise parameters. The user can play the role as administrator and define other users access rights. The Web Enabled Software must have following features:

- 1) Only authorized users can access the web enabled data
- 2) The format for administrator for issue of user id and password should be provided.
- 3) The authorized user should have access to current data and historical data.
- 4) User should have provision for full graphical plotting of the time series of the data and comparison of data from historical data of the station.

- 5) Graphical and GIS based visualization of all the Noise monitoring terminal. The GIS services to show the maps should be on open source like QGIS etc.
- 6) In graphical representation should have full attributes, which should be displayed by positioning cursor on the map.
- 7) The selected station by clicking on the map must show the geographical information and status of the stations, for example Name of station, Station ID, Latitude, Longitude, Height (msl) etc.
- 8) On selecting a station, the complete menu of the data should be displayed.
- 9) Data can be selected both in Tabular and graphical format
- 10) The graphical display for all noise parameters should be available
- 11) The graphical plot of noise data analysis like Peak Noise, average noise etc. are available for the user.
- 12) The authorized users can download noise data in PDF and Excel format.
- 13) User should have provision for full graphical plotting of the time series of the data and comparison of data from historical data of the station.
- 14) Graphical and GIS based visualization of all the Noise monitoring terminal
- 15) Image superposition on a map or on an imported noise map
- 16) The selected station by clicking on the map must show the geographical information and status of the stations, for example Name of station, Station ID, Latitude, Longitude, Height etc.
- 17) Automated reports about user-selected periods (day, week, month, year, etc.) in word, pdf and jpg format.
- 20) Limited display of data in MPCB website for public domain as per format.
- 21) The new monitoring system must be able to integrate data from Phase 1 & 2 legacy system and display in real time
- 22) The software should have provision for integrating third party sensors, such as weather, air quality and other environmental data into the system.

The new system must be compatible and seamlessly integrated with the existing Web server, central and remote stations without any modification of existing system.

**4.5 Back facility:** The vendor is responsible for all support and backup during the contractual period.

**4.6 Calibrator: Specifications for External Acoustic Calibrator**

STANDARDS EN/IEC 60942 (2003), Class 1

Sound pressure level: Nominal: Dual range 94 dB and 114 dB/single range

Frequency : 1000 Hz

Power : Battery operated Carry and storage case to be provided  
Adaptor : suitable adaptor for microphone (as quoted by vendor).

- I. The list of Instruments/ equipment's, their approximate quantity and point of delivery is given at Annexures and the detailed specification of the instruments are given in the tender document. The quantity mentioned in the tender document may be increased or decreased at the discretion of the Competent Authority in the MPC Board without assigning any reason.
- II. The seller/Indian representative should quote a price for delivery of items at the respective site. MPCB will provide concessional custom duty exemption certificate to local representative of the seller for the foreign manufactured items consigned to MPCB. The seller will have responsibility of clearance of goods from custom after paying the mandatory custom duty and completing all necessary formalities for custom clearance. After custom clearance, the seller will transport the goods to all the designated sites as per details provided in ANNEXURES. All the charges should be included in the price bid. The seller/local representative will have full responsibility to transport the system to respective 36 sites as mentioned in Annexures. All the local taxes and duties will be paid by the bidder.
- III. The transportation charge for the goods should be quoted separately. Concessional Custom Duty & Excise Duty exemption certificate will be provided by MPCB. However, Road permit & all other taxes as applicable will be paid by bidder and that will be reimbursed as per actual by the purchaser on production of original document which will be paid after successful installation. Insurance of the instrument should be arranged by the bidder up to MPCB stores and further to respective sites.
- IV. Recurring charges of all remote stations per year should be quoted in the price proposal. The cost of recurring charges for the first year will be added to calculate the lowest bidder. However, MPC Board will facilitate getting the connection of electricity supply, further All the charges including electricity bill shall be in the scope of Supplier.
- V. The cost for recurring charges will be paid on yearly basis at the end of every year after the satisfactory performance of the stations.
- VI. The bidders must indicate the following information in the technical bid as well as price Bid separately for each instruments /equipment quoted offered:
  - a) Country of Origin
  - b) Port of Shipment
  - c) Name & Address of beneficiary Bank, Branch Name with Account No., IBAN & Swift code
  - d) The minimum delivery period shall be 90 days.
  - e) Whether transshipment /partner shipment is required or not.

- VII. Agency commission, if any payable to the Indian Agent, their complete address, telephone & Fax number. The amount of agency commission should be clearly mentioned and it will be paid to authorized local agent in Indian Rupees.
- VIII. Bidder shall intimate the buyer regarding the date of shipment well in advance. A copy of the invoice documents, air way bill, packing list, certificate of country of origin may be forwarded to the purchaser by fax/ E-mail immediately after shipment so that concessional custom duty exemption certificate can be issued in time to avoid demurrage charge.
- IX. The instruments are to be dispatched to the respective places directly and to be installed there, by the supplier under intimation to, MPCB Office at Sion, Mumbai – 22. The packing, forwarding, charges must be quoted according to the place of delivery as mentioned in the schedule. The Supplier shall be liable for any damage, theft or loss during the transit. Single Performa Invoice need to be submitted for all instrument/items.
- X. If the instrument supplied is found defective/unsatisfactory condition/short supply/other than specifications in the Purchase Order, the same will have to be replaced at the supplier's risk and cost. No freight and other charges for replacement will be paid by the Board.

#### **4.7 WARRANTY AND MAINTENANCE**

- a) The manufacturer should provide a comprehensive warranty of at least three years (first year free warranty + two years extended warranty) after commissioning of the system in the field. The manufacturer should take on the work of servicing and routine maintenance of field equipment once in a month. Response time for rectifications of faults in the field Remote station equipment's should not be more than 48 hours.
- b) The warranty/guarantee of the instrument/equipment should be inclusive of 1-year onsite warranty. Additional charges for 2-year onsite warranty should be mentioned in the price proposal. CAMC proposal for 05 years after the expiry of 3 year of warranty should be mentioned in the price proposal as AMC charges.
- c) Total cost of 05-year additional warranty and AMC charges for 4th to 8th year will be added to calculate lowest bidder.

#### **4.8 COMPREHENSIVE ANNUAL MAINTENANCE CONTRACT (CAMC)**

- a) Vendor must quote for the CAMC separately. Vendor will be responsible for the communication of data generated from remote station to central receiving station and other nodes during warranty and CAMC period. Bidder will be responsible for operation and maintenance of the instrument therefore, Bidder must quote for CAMC for 05 years along with their offer which will start after expiry of 3 years of warranty. However, MPC Board will facilitate getting the connection of electricity supply, further All the charges including electricity bill shall be in the scope of Supplier.

#### **4.9 TRAINING TO MPCBs OFFICIALS**

Training will be conducted in two phases:

- a) Familiarization programme under which officials of CPCB / MPCBs will be given in depth training for 5 working days at OEM works. Air travel, boarding, lodging and per diem will be borne by successful supplier at (OEM) works. The bidder should submit the day wise training schedule and the subjects which will be covered under this training.
- b) The manufacturer / supplier should provide in-depth training for 3 working days for all the sites which include 1-day in-house training on handling of software and 2 days in field training on hardware and software to MPCB. The training should cover installations details including operation and maintenance of the system and about all software aspects in respect of Remote & Central Receiving stations. This training will be conducted in Mumbai for all the locations.

#### **4.10 RESIDENT ENGINEER /SERVICES – OPTIONAL**

Bidder should quote for the 02 Resident Engineer and their services which will be responsible for all technical & other support like maintenance of instrument, data communication and report generation at Head Office, MPCB.

#### **4.11 CALIBRATIONS**

- a) Authorised, Independent and Accredited Lab Calibration: Class I Type international certification with Horizontal and Vertical reference direction either from LNE, PTB, METAS, CEM or BEV.
- b) **Internal Self calibration:** The system should perform calibration test to check the whole noise measurement system by means of generating remotely a well known signal at microphone and proper operation of each unit. For this purpose the outdoor microphone should be equipped with a built in electrostatic actuator which should stimulate a pre-defined noise level on the diaphragm of the microphone. This should be automatically used to check the calibration of the sensor and the result should be displayed for each site. This check should be repeated on daily basis to assure the quality data.
- c) **External acoustic calibrator:** The vendor should also carried calibration with an external acoustic calibrator of dual range on quarterly basis.

#### **4.12 COMPLIANCE / NON-COMPLIANCE STATEMENT**

The tenderer shall submit a detailed item-wise compliance / non-compliance statement referring para-wise to the requirements given in this document, for precise evaluation of tender and for any future reference. The compliance statement shall be supported by original brochure(s) of the equipment or sub component from the manufacturer. In case the original brochure is silent on any part of tender specification, it shall be supported by an undertaking by the manufacturer, if claims complied. The technical specifications and other requirements contained in this document are essentially required by the indenter. However, reasons for non-compliance, if any, for certain limited paras, or even sub-paras of the document may also be given by the tenderer. Silence on any part of the commercial or technical specification or failure / omission to provide any such details will be treated as non-compliance. All non-compliance of specifications, even of minor deviations should be clearly brought out.

#### **4.13 RELIABILITY**

In general, it is desired that sensors should be capable of operating for 08 years without physical technical intervention. Sensors and Data logger system should have built-in performance checks and indicators which should be utilized whenever possible.

#### **4.14 SPARES AND CONSUMABLES**

To assure the maximum uptime during warranty and CAMC, the vendor should keep the inventory of the spares to the tune of minimum 10% of the equipment supplied. MPCB would have the right to audit the inventory of spares at any given time during the tenure of the contract in the good condition and performance of the system.

#### **4.15 INSTALLATION, SYSTEM INTEGRATION AND COMMISSIONING**

- a) All the equipments shall be installed and brought into suitable conditions for operation by the supplier at the sites designated by the Board within period of 90 days from date of LoA. The supplier shall make all the necessary and proper adjustments and arrangements, including the utility supplies and connections, foundation and erection (including fencing against possible damage of any animal/creatures) works in order to install the Equipment in adequate conditions for operation.
- b) Only the best installation practices are to be applied, and all the installation works must be done to the satisfaction of the Board and the supplier shall carry the works in a perfect and qualitative works man aptitude. The installation shall be planned and systematic, carry out in such a way so as not to damage installation materials and the Equipments.

- c) All the installation Equipments, tools, materials, labour, logistics and all the other requirements for installation shall be provided by the Supplier.
- d) Bidder shall depute Engineer /supervisor for onsite assembly, installation, commissioning and startup of the supplied equipment. Bidder should offer the complete system with complete turnkey implementation including installation, testing and commissioning to the satisfaction of MPCB officers. The equipment will be installed at MPCB's identified sites. The civil work will depend upon the requirement of the site. Height of Mast should be 4 (four) meters and should be triangular lattice mast as per the field layout drawing. The mast and the installation accessories should be galvanized or should be of stainless steel for external installations.

#### **4.16 INSPECTION AND TEST**

- a) The Board shall have the right to inspect and to test the Equipment to confirm their conformity to the Specifications without any extra charge to the Board by the Supplier. The Supplier shall notify the Board in writing, in a timely manner, of the schedule of inspection and test.
- b) The supplier shall carry out the performance test to inspect and witness the function of each of the equipment supplied under the awarded package at site. In case the Equipment for performance test requires the supplemental and/or supporting Equipment, the supplier shall carry out the performance test including such Equipment. The supplier shall submit the performance test report to the Board.

#### **4.17 Identification of system and Sub system**

The supplier shall affix the name plate with following description in English on all the Equipment:

- a) Name of the Equipment
- b) Manufacturing date
- c) Production serial number
- d) Equipment model no.
- e) Name of the manufacturer

#### **4.18 PACKING & SHIPMENT**

- a) **Transportation by air cargo**

The supplier shall pack and transport the equipment in the double carton, approved by airline and deliver separately to the designated Site in complete packed condition.

**b) Shipment**

The supplier shall be responsible for the delivery of the equipment to each site designated by the Board and for the coverage of air cargo charges, freight, and insurance premiums up to handle over the Equipment at sites, inland transportation and temporary storage etc.

**c) Notification and Submission of Documents** Upon shipment, the supplier shall notify the Board:

- 1) Contract Number
- 2) Description and quantity of the Equipment
- 3) Name of the air cargo
- 4) Number and date of bill of landing and airway bill
- 5) Date of shipment, port of discharge, expected date of departure and expected date of arrival
- 6) Invoice amount of shipment

**d) Inland Transportation**

The Supplier shall be fully responsible for the delivery of all the equipment to the Sites. The Supplier shall arrange at his option and cost of transportation from the port of entry to each site for the equipment of foreign origin.

**e) Handling and Storage**

The supplier shall protect the Equipment from any damage and avoid overloading. Particular attention shall be given to the perishable Equipment and those which must be kept dry, cool or from exposure to direct sunshine and moisture. In case a part of the Board's facilities is necessary to be occupied by the Supplier for temporary storage or installation use, the Supplier shall obtain the written approval from the Board for temporary occupation and protect facilities against any damages. Charges Payable for this facility to the Board for this shall be fixed by the Board.

**f) The supplier shall mail the following documents to the Board.**

**Equipment of Foreign Origin:**

- 1) Copies of the supplier's invoice showing the Equipment's description, quantity, unit price and total amount.
- 2) Six(6) copies of bill of lading and airway bill marked "freight prepaid". A second copy of the bill of lading with air-way bill marked "freight prepaid" originally signed by the shipper should be provided by the supplier directly to the Board immediately after shipment.

- 3) Copies of the packing list identifying contents of each package.
- 4) Insurance certificate.
- 5) Supplier's and/or Manufacturer's warranty certificate
- 6) Certificate of country of origin.

The above documents shall be received by the Board at least one week before arrival of the Equipment at the port or place of arrival for issue of concessional exemption certificate and if not received, the Supplier will be responsible for any consequent expenses.

#### **4.19 Contract Performance Security**

- a) The supplier within seven (7) days from the date of notification of award shall furnish a Bank Guarantee from a reputed Indian or Foreign Commercial bank having license to do business in India to the Board towards performance guarantee for an amount equal to ten (10) percent of the total Price under the contract for faithful and due fulfilment by the Supplier of all obligations under the terms and conditions of the Contract. The bank guarantee should remain valid till the commissioning of the project.
- b) Return of Contract Performance Security The performance security will be discharged by the Board and returned to the Supplier not later than 60 days after successful commissioning and acceptance of the project.

#### **4.20 DELIVERY OF EQUIPMENTS**

- a) The complete delivery must be completed within 2 months of placement of order/acceptance and Installation and commissioning shall be completed within 3 Months from date of LoA.

#### **4.21 LIQUIDATED DAMAGES**

- a. If the Supplier fails to perform the works within the period, the Board shall, without prejudice to its other remedies under the Contract, deduct from the Contract Price, as liquidated damages, a sum equivalent to the percentage as mentioned in following point no. b & c. Once the maximum is reached, the Board may consider termination of the Contract pursuant to clause 4.23 of document.
- b. The supplier shall pay to the Board as liquidated damage a sum equivalent to one (1) percent of the unit price in the Contract Price for each of the equipment undelivered per week delayed.
- c. Maximum Deduction: The total liquidated damages payable to the Board shall not in any case exceed Ten (10) percent of the contract price.

#### **4.22 Suspension Of Work**

The Supplier shall not suspend the whole or any part of the Works without notice to the Board in writing. The Supplier thereupon shall do all possible endeavors to reduce any expenses or costs resulting from the suspension. Such suspension shall not nullify the contract.

#### **4.23 TERMINATION FOR DEFAULT**

**Termination for Default:** The Board, without prejudice to any other remedy for breach of Contract, by written notice of default sent to the Supplier, may terminate this Contract in whole or in part:

- 1) If the Supplier fails to perform any or all of the Works within the period or extension thereof granted by the Board pursuant to the tender document.  
Or
- 2) If the supplier fails to perform any other obligations under the contract.

#### **4.24 Remote Display Specifications:**

- 1 Day light & night visible data (Color) display system consists of size **4 X 6 feet, P6 (6mm) pixel pitch**, 3500m2 minimum pixel Density having Visibility Range 50 Meters (Day time) with Brightness 8500 NIT or higher.
